State	OR
Zip	97302
Message	<p>No development on cross st se! You are asking for more cut through traffic to 14 th and Hines. Already have heavy flow of 18 wheelers trucks going to the kettles chips warehouse at the end of 14 th and Oxford and to the paint plant at 16th and Wilbur. As a maps member you will shorten the parking lot and drive thru and the other business in the Maps building. more congestion on mission st. , Hines and 14 th st. . I for see more traffic accidents on mission. Lived in this area for forty five plus years. This is felony flats! Low income houses and apartments. Old people and lots of young children. Wilbur st off 20 th can go to the property in question. If the Witnells are planning to develop low income (I'm talking low income single parents ) apartments or houses! Under \$800.00 a month rent. This is what Salem need! Traffic would travel 20th , Oxford, 22nd,McGillcrest,Mission. Land owner just got fenced in by existing business. The city should not buy property from maps and the car lot (do the Witnells own the car lot?) we could use that money to get the cherriot buses back in this area. More trees planted since we lost four beautiful white oaks in one block! Our area is known as "Oak Lodge" plus the nine tree removed from the old cannery/kettles foods. One more thing the houses on the corner of 14th and cross are transitions homes for mental patients. Many times the police have been there. To stop outburst in the street or destruction of property. Lots of homeless down at Walling pond and in any nook or cranny in the neighborhood. You are just asking for more traffic problems more crime. We the older people who have live, raised children ,pay our taxes on time and are trying to enjoying our golden years in our neighborhood AS IS! We do not need more traffic. This is the flats. Leave Cross street alone. No one has informed anyone in the neighborhood this is happening! You need to come on down to 14th and Cross and spend a few days and nights counting the trucks on the road. The neighbors that park their cars in front of their houses both sides of the street. Hey, you got my number call me, I will be happy to show you around. Don't make this decision without seeing for yourself. Plus the neighborhood needs a vote on this,too! Don't we have Rights! Look forward to the Dec 5,2022 meeting!</p>
