FISCAL YEAR  
**2027**

City of Salem, Oregon  
Fee Schedule

Salem is a full-service city. The City of Salem provides its residents with services protecting health, safety, and welfare. Municipal services to the community include police protection; emergency response; street maintenance and improvement; operation of the streetlight system; traffic control; planning and zoning regulation; code compliance enforcement; building inspection and regulation; water, wastewater, stormwater utility system; parks operations and maintenance; recreation services; and the Salem Public Library.

This Fee Schedule consolidates City fees adopted by City Council resolution for the services the City provides. Resolution No. 2026-18 rescinds Resolution Nos. 2025-10, 2025-17 and 2025-24 and supersedes any other resolutions for the fees and charges as displayed in this document unless otherwise noted.

## Non Departmental

The Non Departmental section of the fee schedule covers fees and charges not tied to one specific department, but rather to the City operation as a whole. The City Operations Fee, approved by City Council in October of 2019, falls into this category.

### Fee Changes for FY 2027

An increase of 2.90% is based on the CPI-U December to December year over year change and is consistent with prior years' methodology. The City Operations Fee increases in January in tandem with utility rate adjustments.

The City Operations Fee supports the City's General Fund which pays for on-going services.

Single family residential customers that have been qualified through the City's Utility Rate Relief Program shall be exempt from paying the City Operations Fee.

---

### Policy Issues, Exceptions, and Other Special Considerations

The City Operations Fee is governed by Salem Revised Code Chapter 40 and Ordinance Bill 12-19.

## Finance & Municipal Court

The Finance Department charges fees for property lien search, conduit financing, non-sufficient funds transaction, and release of deed processing. In addition, the department administers delinquency penalties for non-payment of Transient Occupancy Tax, Tourism Promotional Area Fee and Downtown Parking Tax.

The Municipal Court is a functional division of the Finance Department and their corresponding fees are displayed in this section.

---

### Fee Changes for FY 2027

A \$1 increase for the electronic lien search fee to align with market, and a \$3 increase to the manual lien search fee to align with corresponding increased staff costs. Additional increases related to purchase of City and URA budget documents to align with material cost increases.

The City Council sunset the Downtown Parking Tax in FY 2026. The assessment for past due penalties and interests will remain on the fee scheduled for assessment of past due accounts prior to the sunset.

---

### Policy Issues, Exceptions, and Other Special Considerations

Delinquency penalties for nonpayment of the Tourism Promotion Area Fee are established in Salem Revised Code 38.100.

Delinquency penalties for nonpayment of Transient Occupancy Tax are established in Salem Revised Code 37.090.

Delinquency penalties for nonpayment of Downtown Parking Tax are established in Salem Revised Code 7.170.

## Building and Safety

The Building and Safety Division of the Community Planning and Development Department administers State of Oregon building codes and City of Salem revised codes, which provide uniform standards that ensure newly constructed residential and commercial buildings are safe for residents to occupy. The division performs a comprehensive structural plan review for all permitted construction within the City limits. Adherence to the approved plans after review is verified during all phases of construction by one of the division's certified inspectors. Building fees include electrical, mechanical, plumbing, and structural charges. Fees are applicable to commercial, industrial, and residential properties unless otherwise specified.

---

## Fee Changes for FY 2027

None.

## Policy Issues, Exceptions, and Other Special Considerations

- The final determination of valuation, occupancy, and / or construction type under any of the provisions of this order shall be made by the Building Official.
  - The valuation to be used in computing the building permit and building plan review fees shall be the total value (rounded up to the nearest dollar) of all construction work for which the permit is issued, as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems, and any other permanent equipment. It also includes the contractor's profit, which should not be omitted.
  - Valuation will be calculated using the most currently adopted International Code Council (ICC) valuation table as required by the State of Oregon, multiplied by the square footage of the structure or as stated by the applicant, whichever is greater.
  - An Automation Surcharge will be charged on all transactions at a rate of \$2.50 for any billing less than \$50.00, and \$5.00 per billing over \$50.00.
  - A State Surcharge fee of 12 percent is applied to all building permit types issued in the State of Oregon. A \$30.00 Manufactured Dwelling Cabana Fee is collected for every manufactured dwelling placement. Fee is a requirement per ORS 446.176(1) and OAR 918-500-0105 and is remitted to the State of Oregon.

## Compliance Services

The City's compliance services officers of the Community Planning and Development Department enforce nuisance, housing, and property maintenance codes. They also inspect multifamily properties to ensure building safety through the application of building, fire, and housing codes.

---

## Fee Changes for FY 2027

Some fees increased by CPI-U.

---

## Policy Issues, Exceptions, and Other Special Considerations

Multifamily license guidelines are outlined in Salem Revised Code (SRC). In accordance with SRC 59.410 -

- (a) Fees for licenses issued pursuant to this chapter shall be set by resolutions of the Council.
- (b) As licenses are issued on an annual basis, three-fourths of the fee shall be required if an application is filed on or after July 1 and on or before September 30 of any calendar year; one-half of the license fee shall be required if the application is filed on or after October 1 of any calendar year.

An Automation Surcharge will be charged on all transactions at a rate of \$2.50 for any billing less than \$50.00, and \$5.00 per billing over \$50.00.

## Planning Services

The City's Planning Services ensure current development proposals align with the community's overall vision for Salem. Planning staff engage and inform the community about planning projects, activities and assist applicants during the land use process. Planning Services fees apply to land use applications, annexations, zoning review of building permits and special requests.

---

### Fee Changes for FY 2027

The Community Planning and Development Department's Planning Division administers multiple land use and development fees. Most fees have increased by CPI-U inflation rate with some having market adjustments.

New fees include, a lower fee for small, non-illuminated signs and fees for two new Pre-Application Conference options.

### Policy Issues, Exceptions, and Other Special Considerations

## Community Planning and Development - Parking Services

The Parking Services Division of the Community Planning and Development Department administers parking fees for a variety of uses including residential, carpool, employee permits in all City Parking Districts. It maintains all City parking meters and monitors parking within City-owned parking surface lots and Parkades as well as on street spots. According to Salem Revised Code 102.010(b), the City Council establishes all fees for parking.

---

### Fee Changes for FY 2027

\$1 or \$2 increases to most full and part-time permits in all parkades.

Resolution No. 2025-17 modified the downtown employee parkade parking permit discount to apply to part-time and full-time employees working in the Downtown Parking District making less than \$25 per hour excluding tips. The monthly permit rates for the Chemeketa parkade is \$20 / month and for the Marion Square parkade the rate is \$15 / month.

Staff propose to continue these modified rates in FY 2027 under the same conditions.

---

### Policy Issues, Exceptions, and Other Special Considerations

The Downtown Parking Tax was sunset by City Council during FY 2026 after completion to the on-street parking program.

### Community Planning and Development Department

The Community Planning and Development Department administers fees for a variety of uses including tax exemption applications and enterprise zones.

---

#### Fee Changes for FY 2027

New fee for Refundable Deposit - Removal of Abandoned Dining Platform. If the owner / applicant disposes of the platform themselves, this fee will be refunded to them. Otherwise, the deposit will be used by the City to cover the cost of removal in the right-of-way.

Increase to the Dining Platform License fee to move closer to cost recovery to revenue lost from parking spaces occupied by dining platforms.

#### Policy Issues, Exceptions, and Other Special Considerations

None.

Refundable Deposit - Removal of Abandoned Dining Platform	New	<b>\$1,000.00</b>	Each	One time fee held by the City until the platform owner removes the platform from the public right-of-way. If the dining platform is abandoned, the owner / applicant waives any right to the deposit and the City may use those funds to remove and dispose of the platform.

## Ambulance Transport Services Pre-Hospital Emergency and Non-Emergency Treatment

Oregon Revised Statute 682.031 allows cities to regulate ambulance and emergency medical services, provided those regulations do not conflict with state law, Oregon Health Authority rules, or the county's ambulance service plan. The Salem City Council sets the rates that may be charged, and this regulation applies equally to the Salem Fire Department and any contracted provider.

### Fee Changes for FY 2027

Ambulance transportation fees for Fiscal Year 2027 have been adjusted in accordance with the Medical Consumer Price Index (CPI), which reflects the annual change in the cost of medical services. For FY 2027, the Medical CPI is 6.24%, and this percentage has been applied to the City's existing ambulance transportation rates. This annual fee adjustment ensures that ambulance service charges keep pace with rising healthcare-related costs, such as medical supplies, equipment, fuel, and labor.

Interfacility transport fees have been removed from the fee schedule and replaced by two types of fees based on service area. The City did not secure service contracts with primary requesting partners and without these agreements, standard transportation rates apply. The fee schedule includes updated rates for patients in the City of Salem, Salem Suburban, Keizer Fire District or Marion County Fire District #1's fire service areas as well as new rates for patients who live outside these areas. The City continues to charge standard transport rates, with an updated mileage calculation approach. Mileage fees are based on the distance traveled from the point of patient pickup to the destination, rounded to the nearest tenth of a mile. Local interfacility transport mileage is proposed at \$52.00 per mile. Out-of-area interfacility transport mileage for transports outside of the Salem area, including destinations such as Dallas, Stayton, Silverton, and areas north or south of Salem city limits is proposed at \$104.00 per mile.

In addition, subscription rates have increased and are now based on household size.

## Community Risk Reduction

### Administrative / General

In addition to other safety, education, and risk-reduction responsibilities, the Community Risk Reduction Division of the Salem Fire Department reviews all new commercial and multi-family residential (triple-plex and larger) construction plans for compliance as part of the City's building permit process. This includes reviewing specialty safety systems and conducting final occupancy inspections to ensure compliance with fire and life safety codes. The associated fee is assessed as a percentage of the building permit fees.

The Fire Department issues annual fire safety permits to businesses that contain extra hazardous uses, as required by the Oregon Fire Code. The department also collects fees for various use permits (e.g., fireworks and pyrotechnic displays, and special events) and various license fees for facilities that require Fire Department approval (e.g., daycare and residential care facilities).

Administrative fees include public records requests and false alarm fees.

### Fee Changes for FY 2027

As part of the City of Salem's ongoing efforts to ensure sustainable and cost-effective services, the Fire Department's Community Risk Reduction Division (CRRD) is updating its fee schedule for Fiscal Year 2027. These updates apply to a range of operational permits, plan reviews, inspections, and specialty activities regulated under the Oregon Fire Code and Salem Revised Code Chapter 58. The updated fees reflect a detailed cost analysis of the time and resources required to deliver these services, including inspections by Deputy Fire Marshals, administrative support, and coordination with the City's Finance Department. Many of the current fees do not cover the actual cost of service. False Alarm fees have increased starting with the 2nd occurrence in the same calendar year to better cover CRRD staff time required to restore systems to proper working order, so emergency crews can remain available for emergency response calls.

To bring the fees closer to cost recovery in a manageable way, a phased approach is being used. While the specific amounts of each fee increase vary by permit or service type, most will see a moderate adjustment in FY 2027, with continued annual adjustments planned in the coming years. This approach enables a gradual transition to a fee structure that more accurately reflects the effort and resources required, while avoiding sudden, significant increases for service users. These changes support the long-term sustainability of the CRRD, ensuring that fire and life safety services remain responsive, effective, and aligned with community expectations.

## Policy Issues, Exceptions, and Other Special Considerations

As part of the continued evolution of fire and life safety services, the Community Risk Reduction (CRR) Division hired two limited-duration fire inspectors to test a proof of concept to determine whether dedicated fire inspector positions can be supported by cost-recovery fees to complete required fire inspections in conjunction with the Building and Safety Division of Community Planning and Development. These positions will continue through FY 2027 at which point they will be reassessed. The CCR Division continues to oversee fire inspections, fire investigations, plan review, and public education, proactively identifying, assessing, and addressing risks that impact community safety.

Administrative / General

Towing

Administrative fees for the Police Department reflect the costs for provision of incident reports and name or address searches.

The towing fee covers the administrative costs to the City for tows authorized by Oregon Revised Statutes and Salem Revised Code. The fee is only collected on those vehicles that are subsequently claimed at the Police Department by the vehicle owner. The claimant is required to pay this fee, and in the case of "no insurance" tows, the individual must also provide proof of liability insurance coverage before the vehicle is released. The owner must also pay charges for the towing and storage imposed by the tow company when claiming the vehicle.

## Development Services

Planning and Development Services in the Community Planning and Development Department coordinates review of development applications to ensure adequacy of public infrastructure and verifies compliance with applicable regulations. The section reviews plans for compliance with land use applications, public facilities standards, and development requirements. Fees in the schedule consist of plan review and permit fees to support these activities.

### Fee Changes for FY 2027

Fees in this section are adjusted annually by the Consumer Price Index for All Urban Consumer, West Region (All Items) with the December to December change with a rate of 2.90 percent or the Engineering News Record December to December change with a rate of 1.02 percent. Fee changes are rounded to the nearest whole dollar. Where no adjustment is recommended, the current fee is anticipated to be sufficient to cover the cost of the service provided.

New fees include:

Addition of two new fees for Traffic Signal shutdown and inspection. One fee is for all work performed during standard working hours (7:00AM-3:30PM, Monday-Friday) and the other is for all work performed after working hours (including evenings, holidays and the weekends). The standard hours fee requires a two-hour minimum for inspection, signal shut down and signal activation. The after- hours requires a two-hour minimum per call-out for both shut down and reactivation (four-hour total minimum).

### Policy Issues, Exceptions, and Other Special Considerations

General policies for Salem Public Works / Community Planning and Development permit charges and service fees appear on pages 61-63 of this document.

An Automation Surcharge will be charged on all transactions at a rate of \$2.50 for any billing less than \$50.00 and \$5.00 per billing over \$50.00.

## Salem CPD / Public Works Permit Charges and Service Fees

## General Policy

Effective July 1, 2026

- A. The proposed fees and charges set out in this Fee Schedule are effective July 1, 2026 and apply to plans and applications submitted or services received on or after July 1, 2026. System Development Charges are updated annually based on the Salem Revised Code.
- B. Fees and charges must be paid at the time required by the Salem Revised Code for the particular fee. If no time is specified, then the fee must be paid in full prior to the time the City commences work on the application. Minimum fees are due at the time of permit issuance with full cost due upon completion.
- C. All fees and charges set out in this fee schedule are the responsibility of the applicant named on the permit or service form, regardless of ownership of the property involved.
- D. All fees and charges set out in the fee schedule expire as specified in Salem Revised Code. Any fees and charges eligible for extension are subject to an extension fee equal to 25 percent of the original permit or service fee.
- E. The amount of the fees and charges set out in this fee schedule are intended to recover the full costs of administration and inspection of the permitted activity or the service provided. Inspection fees include one inspection, one re-inspection if needed, and a final inspection.
- F. Where; (1) job site conditions or other requirements cause the City's costs to increase by more than 10 percent from the established fee; (2) additional inspections are required beyond those covered by the fee; or (3) the applicant requests a service or inspection not covered by the fee or charge, the City of Salem will base the fee on a determination of the amount of time and materials needed to perform the service or inspection.
- G. If work commences prior to issuance of required permits, an additional fee may be required due to increased costs. The additional fee shall be based on Administrative Rule 109-100 and shall not be more than the original permit fee.

## Salem CPD / Public Works Permit Charges and Service Fees

## General Policy

Effective July 1, 2026

- H. A single Site Development Fee, which includes Site Development Permit Fees, Site Development Plan Review Fees, and Single Family Development Fees, is intended to simplify the calculation and collection of applicable fees shown in this fee schedule. Fees collected through a Site Development Fee are identified in the notes section.
1. In addition to the Site Development Fee, permit and service fees are collected when the development application will be reviewed or the site development approval is issued as follows: (1) plans for multiple buildings on one site are submitted at separate times; (2) plans are submitted or permits are issued separately for foundation, site work, shell, and tenant improvements; or (3) plans are submitted or permits are issued separately for wastewater, water, stormwater, erosion control, street improvements, or additional lane closures.
  2. Site Development Fees for building infrastructure projects include the costs for one of each item identified in notes as covered by Site Development Fee and combined domestic / irrigation meter and one fire service tap to serve each property.
    - a. If more than one item noted as covered by Site Development Fee is necessary to serve each property, additional fees are required.
    - b. If the water tap and meter service fees exceed the Site Development Permit Fee by 10 percent, then additional fees will be required.
  3. Site Development Fees for subdivisions include all costs for the developer to provide public infrastructure to serve the subdivision, along with inspection and testing of all water, wastewater, and stormwater connections to individual lots. In some cases, existing water, stormwater or wastewater mains are used to serve individual lots within the subdivision, which requires taps to be installed by Public Works staff at an additional fee.
- I. Franchise Utilities are those companies that have a signed agreement with the City of Salem per Salem Revised Code Chapter 35. Franchise permits simplify and combine excavation / fill, erosion control, encroachment, lane closure, and street opening permits to better accommodate the nature of franchise maintenance and construction work. Franchise permits are defined as follows:
1. Franchise maintenance permit: One combined permit approval for a franchise utility project in the existing or future platted right-of-way that includes up to 100 linear feet of boring or excavation parallel to the right-of-way and no more than one Type A lane closure.
  2. Franchise construction permit: One combined permit approval for a franchise utility project in the existing or future platted right-of-way that does not meet the definition of a franchise maintenance permit, limited to one Type A or Type B lane closure.
- J. Habitat Enhancement fees simplify and combine excavation/fill, erosion control, and floodplain development permits. Normal permit fees apply, except the total fee shall not exceed 10 percent of the project costs.

## Salem CPD / Public Works Permit Charges and Service Fees

## General Policy

Effective July 1, 2026

- K. The City of Salem will give refunds or fee reductions only in the following situations:
1. Applicants may be eligible for a refund of a pro-rata portion of the fees or charges, excluding the automation surcharge, upon request by the applicant if the permit or service order is canceled. The refund amount will be inversely proportional to the work performed by City staff at the time of cancellation.
  2. Applicants undertaking development that is located in an Enterprise Zone that qualifies for Enterprise Zone benefits will receive a 10 percent reduction on applicable permit fees.
  3. Fees and charges may be reduced or refunded upon recommendation of the Director and approval by the City Manager in unusual situations when the fee does not reasonably represent City expenses, where the cost of collecting the fee exceeds the amount of the fee itself, or when an error by City staff causes undue hardship on the applicant.
- L. Expedited services are performed outside the normal timeframes established and are available only as time and staff resources allow.
- M. Plan review and plat review fees are established to cover staff costs for projects that make continual progress from initial application to permit and / or final plat issuance. When projects are delayed over 180 days or when subsequent revisions are not progressing toward completion, City staff may review total City costs for a project and, if City expenses exceed fees collected for the service, require a payment of additional fees prior to continuing review services.

## Streetlight

Salem Revised Code 70A established a fee to be paid for operation, maintenance, upgrade, and expansion of the streetlight system. The fee is charged to the owner, tenant, agent, or other authorized representative responsible for the occupancy of an improved premises for the direct and indirect use of or benefit from the provision and use of the City's street lighting. Single family residential customers that have been qualified through the City's Utility Rate Relief Program shall be exempt from paying a streetlight fee.

---

### Fee Changes for FY 2027

Beginning in FY 2026, fees will be adjusted annually based on Council Policy C-20 which states fees shall be adjusted annually, "...based on the weighted average of the increase announced by the primary electrical utility and the change in the construction cost index from the Engineering News Record from December to December. For example, if 60 percent of the budgeted fund expenditures in the prior year are for electricity and 40 percent are for capital, then the adjustment factor shall be weighted 60 percent based on electricity rates of the primary electrical provider and 40 percent based on the Engineering News Record. In any given year, the rate of increase shall be a maximum of 5 percent unless an exception to this policy is approved by City Council."

### Policy Issues, Exceptions, and Other Special Considerations

The Streetlight Fee was adopted by Resolution 2016-46 establishing streetlight fees. The Streetlight Fund is governed by Council Policy C-20 adopted July 8, 2024 by Resolution 2024-13.

## System Development Charges (SDCs)

Charges for parks, stormwater, transportation, wastewater, and water include three components based on Oregon Revised Statute 223.304: reimbursement to recover existing facility capacity available for growth, improvement to recover planned capacity improvements for growth, and compliance to recover administrative costs.

---

## Fee Changes for FY 2027

Water, Wastewater, Stormwater, Transportation and Parks SDCs are based on the SDC Methodology update adopted under Resolution 2019-7 and are adjusted by the Engineering News Record rate of 1.02 percent for FY 2027.

---

## Policy Issues, Exceptions, and Other Special Considerations

SDCs are adjusted annually per Salem Revised Code (SRC) 41.170(e) based on the index identified in the resolution establishing each fee. Development District fees are set by agreement. Although not set by resolution of the City Council, SDCs, Reimbursement District, and Development District fees are included in the published fee schedule.

An Automation Surcharge will be charged on all transactions at a rate of \$2.50 for any billing less than \$50.00 and \$5.00 per billing over \$50.00.

## Utility Accounts and Services

The City of Salem operates water, wastewater, and stormwater services and maintains and constructs the supporting infrastructure. Safe drinking water is treated at and delivered from the Geren Island Treatment Facility to the City of Salem and other service recipients. Wastewater collection lines are operated and maintained throughout the metropolitan area with treatment centralized at the Willow Lake Water Pollution Control Facility. The City's stormwater system includes pipelines, manholes, catch basins, drainage ditches, stream, and local and regional detention facilities.

Utility Account and Service Fees include customer account fees, water service fees, and wastewater service and permit fees. Customer account and water service fees are set at a rate comparable to other utilities and are not adjusted annually. They are reviewed periodically to ensure the fee covers the cost of providing the service and that they are comparable to other utility providers.

---

## Fee Changes for FY 2027

Most utility fees are adjusted by the Consumer Price Index for All Urban Consumers, West Region (All Items) with the December to December change with a rate of 2.90 percent.

## Policy Issues, Exceptions, and Other Special Considerations

Utility service rates are adopted by separate resolution, currently 2024-46, of City Council every two years and are not included in this process or the published fee schedule. A separate utility rate schedule is published for utility customers residing inside Salem and in surrounding areas. The current utility rates were adopted on November 12, 2025, to be effective January 1, 2025 and January 1, 2026.

## Airport

A variety of fees and charges, including ground lease rates, at Salem-Willamette Valley Airport are established by resolution in accordance with Salem Revised Code 9.010. The fee schedule establishes aviation-related and other user fees for terminal space rental; aircraft landing and tie down; fueling; vehicle parking; new, renewed, or existing ground lease rates; and certain administrative activities. The revenue derived from the fees and charges are used to support airport operations, maintenance, and capital improvements.

---

## Fee Changes for FY 2027

Rental Car Commission Fee reduction - this fee is proposed for reduction from 10% to 5% to align with the pre-commercial air service rates. Market adjustment to the vehicle parking fees.

## Center 50+

Center 50+ is a nationally accredited senior center which provides classes and programs that enhance the lives of seniors in the Willamette Valley.

---

### Fee Changes for FY 2027

Continue to charge an annual fee to non-city residents of \$30.00 or 20% assessed fee per class

Some Center 50+ fees are adjusted by the Consumer Price Index for All Urban Consumers with December to December change with a rate of 2.90% percent with some having market adjustments different from that amount as part of cost recovery

New fees for room rental types, including weekend availability. Also updates to some fitness classes to be City-staff lead and decrease in the Pine Needle Basket class cost.

### Policy Issues, Exceptions, and Other Special Considerations

For rental fees, refunds will be only provided when notice of cancellation is made prior to the cancellation deadline. For event support, if applicable, City staff / services cost recovery will be billed to user.

Some programs offer discounts to qualified City of Salem residents. To receive a discount, the individual must live within Salem city limits and provide proof of income based on local social service provider guidelines. The discount is \$50 / quarter. Center 50+ staff is available to help guests navigate these requirements.

Fees for events conducted by City of Salem are waived.

The City Manager may authorize a special facility use fee or waiver for a City Facility based on an intergovernmental agreement or an agreement with a non-profit organization. Community Services Director or designee may waive all or a portion of the Facility Use Fee to address extenuating circumstances, except as otherwise specified in this Fee Schedule.

“Non-profit organization” means an organization with a current registration with the Oregon Secretary of State as a non-profit corporation. For the purposes of determining fees, the following are not eligible for a non-profit organization discount: municipal corporations (city, county), public schools and school districts, public universities, private schools and universities, state agencies, federal agencies, and active, guard, or reserve military units.

The Facility Use Fee for a reservable facility in a City park will be reduced by 20% from the values listed in this Fee Schedule for a non-profit organization as defined in this Fee Schedule. Facility Use Fees are those fees charged for using reservable facilities such as the Riverfront Park South Meadow, Riverfront Park North Meadow, Boat Dock, Riverfront Park Amphitheater, Gerry Frank | Salem Rotary Amphitheater, Bush Park Amphitheater, park shelters, ballfields, and room rentals.

The fee reduction for non-profit organizations is not available for permit fees, such as fees for sound permits, short-term concessionaire permits, and alcohol permits. Other costs associated with the use of a facility, such as deposits, cleaning fees, event fees, vendor fees, processing fees, staffing costs, and equipment use are also not eligible for this fee reduction.

The reduction of the Facility Use Fee given to a non-profit organization cannot be combined with any other fee reduction provided by the City to an organization owing to its non-profit status.

In accordance with the Council-approved agreement with the Rotary Club of Salem, the Facility Use Fees for a reservable facility in Riverfront Park may be waived for up to five days per calendar year for the Rotary Club of Salem. (See Exhibit F of "Ground Lease: The Gerry Frank | Salem Rotary Amphitheater" dated June 13, 2019. Available at:

Facility Use Fees are waived for scheduled public business meetings that are conducted by an organization directly associated with the City of Salem. By way of illustration but not limitation, this includes meetings conducted by: Neighborhood Associations and City of Salem boards, commissions, and committees. When the Facility Use Fee has been waived for an event, incidental City support services such as providing electrical access at a park site, providing chemical toilets, or bringing in extra picnic tables are not available. Referenced organization will be responsible for any permit application/processing fees and for any expenses resulting from damage or maintenance that is above the normal level of service. Referenced organizations desire to use Pringle Hall shall reserve the facility no more than 20 working days in advance of use.

## Parks and Recreation

Parks and Recreation fees include rental of all park facilities, community event support, softball, adult and youth recreation programming and activities.

---

### Fee Changes for FY 2027

#### *Permit Methodology:*

Most of the new fees in Parks and Recreation sections reflect the sunsetting of one fee for a permit and then the beginning of two similar fees with a distinction made for the number of people expected at the location. This is to better cover costs associated for Parks staff and cost recovery for weekend issued permits.

#### *Some New Fees:*

Youth Sports Program consolidation with one fee for all youth 17 or under.

Community Event - Farmer's Market fees for various vendor sizes

Some Recreation fees are adjusted by the Consumer Price Index for All Urban Consumers with the December to December change with a rate of 2.90% percent with some having market adjustments different from that amount.

Some fees have been renamed, so they are displayed as "new". For example, the Daily Concessions Fee will now be called Short-Term Concessions Fee. Escalation methodology remains the same.

Some fees have had their note updated significantly, so they are displayed as "new". For example, the Irrigation Locate Fee will go from being 200 sq feet to the reservable area. Escalation methodology remains the same.

#### **Policy Issues, Exceptions, and Other Special Considerations**

To avoid mid-season adjustments, most youth recreation and softball fees are proposed to be effective January 1, 2027, except when noted as being effective July 1, 2026. Park Facility and Special Event fees are effective July 1, 2026.

Fees set by another entity, such as a national softball association, and collected by City of Salem, are included in the proposed schedule and are noted accordingly.

Fees set by contract through a competitive bidding process for recreation activities or classes are included in the proposed schedule at the current rate and identified as variable. The City reserves the right to cancel classes when minimum enrollment has not been met. Cancelled classes will be issued full refunds.

League late registrations or payments not made in full after the entry deadline will incur an additional late fee. There will be an \$80 charge on all refunds.

For park rental fees, refunds will be only when notice of cancellation is made prior to the cancellation deadline, minus the Permit Processing / Application Fee. For event support, if applicable, City staff / services cost recovery will be billed to user.

Some programs led by Recreation Leaders offer fee waivers to qualified City of Salem residents. To receive a fee waiver, the parent / guardian must live within Salem city limits and provide proof of one of the following: Oregon Trail Card, Oregon Health Plan or WIC Card.

Fees for events conducted by City of Salem are waived.

The City Manager may authorize a special facility use fee or waiver for a City Facility based on an intergovernmental agreement or an agreement with a non-profit organization. Community Services Director designee may waive all or a portion of the Facility Use Fee to address extenuating circumstances, except as otherwise specified in this Fee Schedule.

“Non-profit organization” means an organization with a current registration with the Oregon Secretary of State as a non-profit corporation. For the purposes of determining fees, the following are not eligible for a non-profit organization discount: municipal corporations (city, county), public schools and school districts, public universities, private schools and universities, state agencies, federal agencies, and active, guard, or reserve military units.

The Facility Use Fee for a reservable facility in a City park will be reduced by 20% from the values listed in this Fee Schedule for a non-profit organization as defined in this Fee Schedule. Facility Use Fees are those fees charged for using reservable facilities such as the Riverfront Park South Meadow, Riverfront Park North Meadow, Boat Dock, Riverfront Park Amphitheater, Gerry Frank | Salem Rotary Amphitheater, Bush Park Amphitheater, park shelters, ballfields, and room rentals.

The fee reduction for non-profit organizations is not available for permit fees, such as fees for sound permits, short-term concessionaire permits, and alcohol permits. Other costs associated with the use of a facility, such as deposits, cleaning fees, event fees, vendor fees, processing fees, staffing costs, and equipment use are also not eligible for this fee reduction.

The reduction of the Facility Use Fee given to a non-profit organization cannot be combined with any other fee reduction provided by the City to an organization owing to its non-profit status.

In accordance with the Council-approved agreement with the Rotary Club of Salem, the Facility Use Fees for a reservable facility in Riverfront Park may be waived for up to five days per calendar year for the Rotary Club of Salem. (See Exhibit F of “Ground Lease: The Gerry Frank | Salem Rotary Amphitheater” dated June 13, 2019. Available at:

## Salem Public Library

Salem Public Library is a member of the Chemeketa Cooperative Regional Library Service (CCRLS) connecting libraries in Marion, Polk, and Yamhill counties. The fine for overdue materials and fees for full-service cards offered to county residents living outside of public library coverage and interlibrary loans are set by the member libraries of CCRLS. Other fees in this schedule are established through a Salem City Council resolution.

---

### Fee Changes for FY 2027

New fee for color photocopies. Room rentals and other miscellaneous fees increased by the CPI-U of 2.90%.

### Policy Issues, Exceptions, and Other Special Considerations

The Community Services Director or designee, may waive all or a portion of a Lost or Damaged Library material fee to address extenuating circumstances, except as otherwise specified by this Fee Schedule.
