REGARDING: Subdivision Case No. SUB19-06

PROJECT ADDRESS: 5800 Block of Battle Creek Rd SE & s/w corner of Battle Creek Rd & Landau St SE / 97306

AMANDA Application No. 19-111411-LD

COMMENT PERIOD ENDS: August 23, 2019

REQUEST: A phased subdivision tentative plan to divide approximately 18.9 acres into 93 lots, with Phase 1 dividing approximately seven acres into 35 lots, Phase 2 dividing approximately six acres into 31 lots, Phase 3 dividing approximately six acres into 27 lots. The applicant is requesting an alternative street standard to increase the grade of Landau Street SE to 12.40% and increase the block length of Soapstone Avenue SE from 600-feet to 640-feet.

The subject property is approximately 19 acres in size, zoned RA (Residential Agriculture), and located on the 5800 Block Battle Creek Road SE and the southwest corner of Battle Creek Road SE and Landau Street SE (Marion County Assessor Map and Tax Lot Number: 083W13C / 02001).

Attached is a copy of the proposal and any related maps. The complete case file, including all materials submitted by the applicant and any applicable professional studies such as traffic impact analysis, geologic assessments, and stormwater reports, are available upon request. A decision for this proposal will be prepared by the planning staff from information available to staff. You are invited to respond with information relating to this property and this request. We are interested in receiving pertinent, factual information such as neighborhood association recommendations and comments of affected property owners or residents.

Comments received by 5:00 P.M., August 23, 2019, will be considered in the decision process. Comments received after this date will be not considered. **Mailed comments can take up to 7 calendar days to arrive at our office. To ensure that your comments are received by the deadline, we recommend that you e-mail or hand deliver your comments to the Case Manager listed below.**

SEND QUESTIONS OR COMMENTS TO: Olivia Glantz, Planner III City of Salem, Planning Division; 555 Liberty St SE, Room 305, Salem, OR 97301; Phone: 503-540-2343; Fax: 503-588-6005; E-Mail: OGlantz@cityofsalem.net; <http://www.cityofsalem.net/planning>

PLEASE CHECK THE FOLLOWING THAT APPLY:

1. I have reviewed the proposal and have no objections to it.
2. I have reviewed the proposal and have the following comments: see attached

RE: Land Use Activity Case No. SUB19-06, 5800 Block Battle Creek Rd. SE

The City of Salem issued a Request for Comments for a Land Use Case as referenced above. Please find below comments on the impact of the proposed land use change on the Salem-Keizer School District.

IDENTIFICATION OF SCHOOLS SERVING THE SUBJECT PROPERTY

The School District has established geographical school attendance areas for each school known as school boundaries. Students residing in any residence within that boundary are assigned to the school identified to serve that area. There are three school levels, elementary school serving kindergarten thru fifth grade, middle school serving sixth thru eighth grade, and high school serving ninth thru twelfth grade. . The schools identified to serve the subject property are:

School Name	School Type	Grades Served
Pringle	Elementary	K thru 5
Judson	Middle	6 thru 8
South Salem	High	9 thru 12

Table 1

SCHOOL CAPACITY & CURRENT ENROLLMENT

The School District has established school capacities which are the number of students that a particular school is designed to serve. Capacities can change based on class size. School capacities are established by taking into account core infrastructure (gymnasium, cafeteria, library, etc.) counting the number of classrooms and multiplying by the number of students that each classroom will serve. A more detailed explanation of school capacity can be found in the School District's adopted Facility Plan.

School Name	School Type	School Enrollment	School Design Capacity	Enroll./Capacity Ratio
Pringle	Elementary	665	663	100%
Judson	Middle	990	995	99%
South Salem	High	1,926	1,797	107%

Table 2

POTENTIAL ADDITIONAL STUDENTS IN BOUNDARY AREA RESULTING FROM APPROVAL OF LAND USE CASE

The School District anticipates the number of students that may reside at the proposed development based on the housing type, single family (SF), duplex/triplex/four-plex (DU), multi-family (MF) and mobile home park (MHP). The School District commissioned a study by the Mid-Willamette Valley Council of Governments in 2014 to determine an estimate of students per residence, for the Salem-Keizer area, in each of the four housing types. Since the results are averages, the actual number of students in any given housing type will vary. The table below represents the resulting estimates for the subject property:

School Type	Qty. of New Residences	Housing Type	Average Qty. of Students per Residence	Total New Students
Elementary	93	SF	0.194	18
Middle	93	SF	0.101	9
High	93	SF	0.143	13

Table 3

POTENTIAL EFFECT OF THIS DEVELOPMENT ON SCHOOL ENROLLMENT

To determine the impact of the new residential development on school enrollment, the School District compares the school capacity to the current enrollment plus estimates of potential additional students resulting from land use cases over the previous two calendar years. A ratio of the existing and new students is then compared with the school design capacity and expressed as a percentage to show how much of the school capacity may be used.

School Name	School Type	School Enrollment	New Students During Past 2 yrs	New Student from this Case	Total New Students	School Design Cap.	Enroll./Cap. Ratio
Pringle	Elem.	665	26	18	44	663	107%
Judson	Mid.	990	16	9	25	995	102%
South Salem	High	1,926	93	13	106	1,797	113%

Table 4

ESTIMATE OF THE EFFECT ON INFRASTRUCTURE – IDENTIFICATION OF WALK ZONES AND SCHOOL TRANSPORTATION SERVICE

Civic infrastructure needed to provide connectivity between the new residential development and the schools serving the new development will generally require roads, sidewalks and bicycle lanes. When developing within one mile of school(s), adequate pathways to the school should be provided that would have raised sidewalks. If there are a large number of students walking, the sidewalks should be wider to accommodate the number of students that would be traveling the

path at the same time. Bike lanes should be included, crosswalks with flashing lights and signs where appropriate, traffic signals to allow for safe crossings at busy intersections, and any easements that would allow students to travel through neighborhoods. If the development is farther than one mile away from any school, provide bus pullouts and a covered shelter (like those provided by the transit district). Locate in collaboration with the District at a reasonable distance away from an intersection for buses if the distance is greater than ½ mile from the main road. If the distance is less than a ½ mile then raised sidewalks should be provided with stop signs where students would cross intersections within the development as access to the bus stop on the main road. Following is an identification, for the new development location, that the development is either located in a school walk zone or is eligible for school transportation services.

School Name	School Type	Walk Zone or Eligible for School Transportation
Pringle	Elementary	Walk Zone
Judson	Middle	Eligible for School Transportation
South Salem	High	Eligible for School Transportation

Table 5

ESTIMATE OF NEW SCHOOL CONSTRUCTION NEEDED TO SERVE DEVELOPMENT

The School District estimates the cost of constructing new school facilities to serve our community. The costs of new school construction is estimated using the Rider Levett Bucknall (RLB) North America Quarterly Construction Cost Report and building area per student from Cornerstone Management Group, Inc. estimates. The costs to construct school facilities to serve the proposed development are in the following table.

School Type	Number of Students	Estimate of Facility Cost Per Student*	Total Cost of Facilities for Proposed Development*
Elementary	18	\$54,925	\$988,650
Middle	9	\$64,045	\$576,405
High	13	\$73,164	\$951,132
TOTAL			\$2,516,187

Table 6

*Cornerstone Management Group, Inc. estimates based on RLB cost index average, 2019 First Quarter.

School District buried fiber utility lines exist adjacent to the subject parcel on the south side of Landau St. SE

Sincerely,

David Fridenmaker, Manager
Planning and Property Services

c: Mike Wolfe, Chief Operations Officer, David Hughes, Manager – Custodial, Property and Auxiliary Services, Michael Shields, Director of Transportation
