Message	You have on the agenda to consider: An appropriation for legal services required to join pending litigation regarding certain federal grant conditions, I strongly oppose and suggest we stay out of the fight between the Governor and the President. The President has NEVER done anything illegal despite how hard Democrats push against him. He never will because he is bound to God to rule legally. Plus prophecy proclaims west coast AG's will fail and be called out. Salem doesn't have money to waste and throw down this rat hole. If you waste money, taxpayers will become angry for allowing you the bond win. Keep Salem in unity and drop all support against the President and we will come out ahead.
