Hello,

I'm concerned about the downtown parking tax still being charged now that we are paying for parking meters. Why? This seems unfair to the small businesses that are now losing customers while still having to pay. I know that many citizens are avoiding the downtown area during the new meter times. I would really like to address this issue and understand why the city seems to be double dipping.

Thanks

Message	Hello, I wanted to say I hope you will consider repealing the downtown parking tax. I am much more likely to bring my family downtown without the tax. Thank you for your consideration.
