Subject: Proposed Utility Rate Increase
Date: Tuesday, November 12, 2024 10:44:19 AM

Retirees are getting crushed by government taxes and rate increases. While Social Security recipients get a 2.5 % increase, government cost continue to be double or triple that. Retirees need a break.

Message	I am adamantly apposed to the proposed City of Salem Water, Sewer, and Stormwater rate increase. When are these rate and fee increases going to stop! You are breaking me and you wonder why you have a homeless problem. The public keeps telling you they can't afford these cost of living increases, but you don't listen. Have you ever thought you are the problem, not the victims.
