Eola Drive NW is designated as Minor Arterial under the Salem Transportation System Plan (TSP), which requires a minimum right–of–way width of 72 feet. No trees have been identified for removal by the applicant as part of this conditional use permit. Any removal of trees from the property must comply with the requirements of the City’s tree preservation ordinance (SRC Chapter 808).

Pursuant to SRC 300.620(b)(2)(B)(iii), (vi), & (vii), notice was provided to surrounding addresses, property owners, and tenants within 250 feet of the subject property. No comments were received from the Neighborhood Association or from neighbors (property owners and tenants) within 250 feet of the subject property.

The subject property is not located within a Homeowner’s Association.

4. City Department and Public Agency Comments

The Development Services Division reviewed the proposal and indicated no concerns.

The Salem Building and Safety Division reviewed the proposal and indicated that it had no concerns. However, it was pointed out that required building permits should be obtained.

5. Analysis of Conditional Use Criteria

SRC Chapter 240.005(a)(1) provides that no building, structure, or land shall be used or developed for any use which is designated as a conditional use in the UDC unless a conditional use permit has been granted pursuant to this Chapter.

SRC Chapter 240.005(d) establishes the following approval criteria for a conditional use permit:

Criterion 1 (SRC 240.005(d)(1): *The proposed use is allowed as a conditional use in the zone.*

Finding 8: The subject property at 3130 Eagle Ray Creek Court NW, Salem, Oregon is zoned RS (Single-Family Residential), which requires a conditional use permit for short-term rentals per Table 511-1 in SRC 511.005(a).

Conclusion: As short-term rentals are allowed in the RS zone as a conditional use, the Hearings Officer concludes that the proposal meets this criterion.

Criterion 2 (SRC 240.005(d)(2): *The reasonably likely adverse impacts of the use on the immediate neighborhood can be minimized through the imposition of conditions.*

Finding 9: The applicant is requesting a conditional use permit for a short-term rental. The term “short-term rental” is defined by SRC 111.001 as a type of short-term rental which is operated as an accessory use to a household living use where a resident family rents guest rooms within their dwelling unit, or a guest house if applicable, when they are present as hosts, or rents their entire dwelling unit, including a guest house if applicable, during periods of time when they are away, to overnight guests on a daily or weekly basis for periods of less than 30 consecutive days. A short-term rental differs from an accessory short-term rental in that it is not a residential use where individuals reside on the property as their primary place of living while in the latter a resident family is present or normally resides in the dwelling. The proposed use is a short-term rental because there is no resident family present. The applicant will be managing the rental as required by the license standards for short-term rentals under SRC 30.1105(b) and will be the primary point of contact for neighbors, respond to any issues that arise, and ensure the property is maintained.

To ensure the proposed short-term rental operates in a manner that will not impact the immediate neighborhood, the following conditions of approval are recommended, which are derived from the standards applicable to non-hosted accessory short-term rentals under SRC 700.006:

Condition 1: The maximum number of occupants in the short-term rental shall not exceed six persons. For purposes of this condition of approval, children under 12 years of age do not count towards the maximum number of occupants.

Condition 2: The short-term rental shall be rented to only one group of guests at a time. Bookings of the rental by more than one group of guests at any given time is prohibited.

Condition 3: Use of the short-term rental shall be limited to the provision of lodging. Activities other than lodging, such as events, parties, gatherings, luncheons, banquets, weddings, meetings, fundraising, or commercial or advertising activities are prohibited.

Condition 4: Use of the short-term rental shall not generate noise beyond the property between the hours between 10 pm to 8 am.

Finding 10: To ensure that adequate bicycle parking is provided to serve proposed uses, SRC 806.055 establishes minimum bicycle parking requirements. Pursuant to Table 806-9 in SRC 806.055, the minimum off-street bicycle parking for short-term rentals is the greater of four spaces or one space per 50 rooms, with 75 percent of spaces allowed as long-term. As the proposed short-term rental includes three guestrooms, the minimum required bicycle parking for the use is four spaces. To ensure that the bicycle parking spaces provided conform to the applicable standards of SRC Chapter 806, and that a minimum of one bicycle parking space meets the short-term bicycle parking standards, the following condition of approval is recommended:

Condition 5: The bicycle parking spaces provided for the short-term rental use shall be developed in conformance with the applicable bicycle parking development standards included under SRC 806.060 prior to the issuance of a short-term rental license.

Conclusion: This criterion has been met as the reasonably likely adverse impacts of the proposed short-term rental on the immediate neighborhood are minimized through the recommended conditions of approval, conformance with the applicable licensing requirements for short-term rentals included under SRC Chapter 30, and the experience of the applicant in managing properties.

Criterion 3 (SRC 240.005(d)(3): *The proposed use will be reasonably compatible with and have minimal impact on the livability or appropriate development of surrounding property.*

Finding 11: No public comments were received that expressed concerns about the proposal. Short-term rentals are similar to a normal residential use in that they provide a place where living and sleeping accommodations are provided. Conditions of approval that limit the number of bookings and guests, provide noise restrictions, and that limit the use of the short-term rental to residential-related uses work to ensure that the proposed use of the subject property will be reasonably compatible and have a minimal impact on the livability or appropriate development of surrounding properties. There are no other factors present that would cause one to drawn a different conclusion.

All operators of a short-term rental are required to obtain a short-term rental license per SRC 30.010. To obtain the short-term rental license, the operator is required to meet the licensing standards of SRC 30.1105 and must renew the license by the end of each calendar year. The licensing requirements are designed to ensure that short-term and

accessory short-term rentals have minimal impacts to surrounding uses and residents, in addition to complying with any applicable conditions of approval where a conditional use permit is required. As conditional use approvals “run with the land” and are tied to the property rather than the applicant, the licensing requirements help standardize the operation of a short-term rental even if the licensed operator differs from the property owner or applicant for any conditional use approvals.

Whether the proposed conditional use will likely not have adverse impacts on the neighborhood is largely determined by the ability and willingness of an applicant to abide by the conditions established in this decision and their resolution to monitor the subject property closely enough to ensure that it and its use are compatible with the surrounding neighborhood. At the moment, the surrounding neighborhood is occupied largely by owner-occupied residences. The applicants have about one year’s experience with managing short-term rentals and rely upon a commercial rating system in selecting renters. They have a close relationship with an individual who lives adjacent to the proposed short-term rental and who will report tenant behavior that might not be compatible with the existing neighborhood. Finally, the short-term rental is served by a commercial waste disposal company and is subject to regular yard maintenance. Given the experience of the applicants in managing a short-term rental, there is a high likelihood that any adverse impacts from the use of the proposed short-term rental will be swiftly cured by the applicants.

Conclusion: The Hearings Officer concludes that the proposal meets this criterion.

DECISION

- Condition 4:** Use of the short-term rental shall not generate noise beyond

the property between the hours between 10 pm to 8 am.

Condition 5: The bicycle parking spaces provided for the short-term rental use shall be developed in conformance with the applicable bicycle parking development standards included under SRC 806.060 prior to the issuance of a short-term rental license.
