

Lower substance use and improve health in our community.

PREVENT, TREAT, ENFORCE

PREVENT

Decrease drug use and increase health in children, youth and adults

- ▶ Avoid and deter mis-use & disorder
- ▶ Redirect / divert from risky behavior
- ▶ Build resiliency to reduce the likelihood of risky or harmful behavior
- ▶ Improve system coordination

TREAT

Decrease drug-related deaths

- ▶ Connect individuals to behavioral health and recovery services
- ▶ Align efforts with county and regional partners
- ▶ Support access to care

ENFORCE

Increase drug seizures and track trends to inform activity
Reduce drug-related violent crime; complaints of activity; repeat offenders (livability impacts from drug availability and use)
Increase capacity for public safety

- ▶ Reduce / Eliminate flow of drugs
- ▶ Hold those who are distributing accountable and deter others

GOALS

Promote and facilitate community education – substance use and misuse prevention for youth, provide programs as alternatives/divert from behavior, and build resiliency; participate in regional network

- » Youth Programs
- » Opioid Prevention
- » City Advocacy
- » Library Programs
- » Community Violence Reduction Initiative
- » Safe Parks
- » Police/Homeless Services Team
- » Community Services Programs

GOALS

Provide triage response, intervene, and get connected to help for recovery

- » Fire (REACH) Rapid Engagement, Assessment & Community Health Team
- » Medical Assistance/Treatment
- » City Advocacy
- » Referral/Warm hand-off to Community Based Programs/Resources
- » 9-1-1

GOALS

Enforce laws

- » Police Department
- » City Advocacy

GOALS

Support recovery

- » Salem Health
- » 9-8-8, Bridgeway
- » Schools
- » (County) LEAD, Addiction Treatment
- » Drug Court/STAR
- » (State)

GOALS

Enforce laws, prosecute and reform

- » (County) District Attorney, Sheriff, Public Safety Coordinating Council, Law Enforcement Assisted Diversion (LEAD)
- » (Federal) ATF, FBI, DEA
- » (State) Department of Justice, Oregon State Police

GAPS

- » 2 officers to supplement prevention & enforcement
- » Prevention Education Strategy
- » Regional Network for Settlement Recipients
- » Cross-Sector Youth Prevention Network

GAPS

- » Beds for care and recovery; specific for kids
- » Data sharing system-wide outcomes; re: overdose

GAPS

- » Jail space
- » Public defenders
- » Prosecutorial resources
- » (Same 2) officers to supplement prevention and enforcement
- » Increase use of treatment referrals

City Roles and Support Response

Community Partners Roles, Support

Gaps

Reducir el consumo de sustancias y mejorar la salud en nuestra comunidad.

PREVENIR, TRATAR, CUMPLIR

PREVENIR

Disminuir el consumo de drogas y mejorar la salud en niños, jóvenes y adultos.

- ▶ Evitar y disuadir el mal uso y el desorden
- ▶ Redirigir/desviar de conductas de riesgo
- ▶ Fomentar la resiliencia para reducir la probabilidad de conductas de riesgo o perjudiciales
- ▶ Mejorar la coordinación del sistema

TRATAR

Reducir las muertes relacionadas con las drogas

- ▶ Conectar a las personas con servicios de salud conductual y recuperación
- ▶ Alinear los esfuerzos con socios del condado y de la región
- ▶ Apoyar el acceso de cuidado

CUMPLIR

Aumentar las incautaciones de drogas y monitorear las tendencias para informar actividades
 Reducir los delitos violentos relacionados con las drogas, las quejas sobre actividades ilícitas y la reincidencia (impactos de vida derivados de la disponibilidad y el consumo de drogas).
 Aumentar la capacidad de seguridad pública.

- ▶ Reducir o eliminar el flujo de drogas.
- ▶ Responsabilizar a los que están distribuyendo y disuadir a otros.

Funciones de la ciudad y respuesta de apoyo

OBJETIVOS

Promover y facilitar la educación comunitaria —prevención del uso y abuso de sustancias entre los jóvenes, ofrecer programas alternativos o de desvío conductual; y fomentar la resiliencia; así como participar en la red regional.

- » Programas para jóvenes
- » Parques seguros
- » Prevención del uso de opioides
- » Equipo de servicios policiales para personas sin hogar
- » Apoyo de la ciudad
- » Programas de servicios comunitarios
- » Programas bibliotecarios
- » Programas de servicios comunitarios
- » Iniciativa para la reducción de la violencia comunitaria

OBJETIVOS

Proporcione respuesta de triaje, intervenga y conéctese con ayuda para la recuperación.

- » Bomberos (REACH Equipo de Respuesta Rápida, Evaluación y Salud Comunitaria)
- » Apoyo de la ciudad
- » Asistencia/Tratamiento médico
- » Referencia/Una cálida entrega a otro programa o recurso comunitario
- » 9-1-1

OBJETIVOS

Cumplir las leyes

- » Departamento de Policía
- » Apoyo de la Ciudad

Roles y apoyo de los socios comunitarios

OBJETIVOS

Apoyar la recuperación

- » Salem Health
- » 9-8-8, Bridgeway
- » Escuelas
- » (Condado) LEAD, Tratamiento de adicciones
- » Tribunal de Drogas / STAR
- » (Estado)

OBJETIVOS

Hacer cumplir las leyes, procesar y reformar.

- » (Condado) La fiscalía, el alguacil, y los programas Public Safety Coordinating Council, y Law Enforcement Assisted Diversion (LEAD)
- » (Federal) ATF, FBI, DEA
- » (Estatal) Departamento de Justicia, Policía Estatal de Oregón

BRECHAS

- » 2 oficiales de policía para reforzar la prevención y el cumplimiento de la ley
- » Estrategia de educación preventiva
- » Red regional para beneficiarios de programas de asentamiento
- » Red intersectorial de prevención juvenil

BRECHAS

- » Camas para cuidados y recuperación, específicas para jóvenes.
- » Sistema de intercambio de datos sobre resultados a nivel de todo el sistema, en relación con las sobredosis.

BRECHAS

- » Espacio carcelario
- » Abogados defensores públicos
- » Recursos fiscales
- » (Los mismos 2) policías para reforzar la prevención y la aplicación de la ley
- » Aumento del uso de referencias de tratamiento

Brechas

Guide to Drug Prevention, Treatment, and Enforcement in Salem: Assessment and Engagement Tool

The draft engagement tool (Attachment 1) reflects an evolving understanding of the organizations and stakeholders involved in prevention, treatment, and enforcement efforts. As an engagement tool, it will continue to be refined based on input from community partners.

In its current form, the overarching purpose of the combined Prevent, Treat, and Enforce framework is to lower substance use and improve health in our community. This goal is illustrated at the top left of the framework, directly below the target.

Moving from left to right, each focus area includes a defined overall goal, presented in the first column (the darker shaded row), with corresponding key activities outlined below.

For example, the overall goal of *Enforce* activities is to:

- Increase seizures of illegal drugs to track trends and inform activity.
- Reduce drug-related violent crime; complaints of activity; repeat offenders (livability impacts from drug availability and use)
- Increase capacity for public safety

Primary measures associated with these activities are outlined below the overall goal: to reduce or eliminate the flow of drugs and hold those who are distributing accountable and deter others.

The City's roles in Prevent, Treat, and Enforce are reflected in the second column. Using the Enforce example, the primary goal of the City's Enforce activities is to Enforce Laws. Key City actors include the Police Department, along with the City's advocacy efforts.

The third column shows the City's initial understanding of partner roles. For the purposes of this graphic, partners are presented at a high level. As engagement continues, staff are building a compendium to list all actors with a brief description of the activities they perform. In *Enforce*, the County, State and Federal partners are shown with their activities aimed at enforcing laws, prosecuting and enacting reforms.

The far-right column is reserved for identified gaps. Initial conversations point to *Enforce* gaps as being jail space, limited public defenders, prosecutorial resources, and a need for officers to supplement prevention and enforcement work. These represent initial gaps, and not all fall within the City's direct role. Through ongoing engagement, the City will continue to identify additional gaps and work with partners and the community to develop a coordinated strategy.
