There exists within certain residential areas of the city, heavy concentration of vehicles which park all day, or which in the evening hours, are driven therein without specific destination and congregating at various points committing offenses against the peace and dignity of the city and the residents thereof.
2. The presence of these vehicles causes vehicular congestion on local streets, impede the movement of traffic; and unduly restrict entry of residents to their homes.
3. That such vehicular congestion creates polluted air, excessive noise, and trash and refuse.
4. The conditions mentioned in subsections (1), (2) and (3) of this section creates blighted or deteriorated residential areas.
5. The establishment of residential permit parking zones will help to preserve the character of these areas as residential areas and will preserve property values.
6. The establishment of residential permit parking zones will reduce motor vehicle miles traveled in the city by requiring commuters to car pool or to utilize forms of transportation which are less polluting per person than single passenger motor vehicles, will discourage driving motor vehicles into residential areas without a purpose or specific designation, and thereby assist in the attainment of national and state ambient air quality standards.
7. That residential permit parking regulations are necessary to promote the health, safety, and welfare of the inhabitants of the city.

B. For the purpose of this section, the following definitions shall apply:

1. Residential areas shall mean a contiguous or nearly contiguous area containing public streets or parts thereof primarily abutted by residential property or residential and nonbusiness property such as schools, parks, churches, hospitals, and nursing homes. Residential area shall also mean a residential land use within the area generally bounded by Union Street on the north, Trade Street on the south, Winter Street on the east, and Front Street on the west.
2. Commuter vehicle shall mean a motor vehicle operated in or parked in a residential area by a person not a resident thereof.
3. Impacted by commuter vehicles shall mean; (a) A condition whereby the average number of commuter vehicles parking on streets in a residential area is in excess of 25 percent of the number of parking spaces on such streets, and the total number of spaces actually occupied by any vehicles exceeds 75 percent of the number of spaces on such streets on the weekdays of any month; or (b) A condition whereby an undue number of commuter vehicles are being driven into a residential area regularly between the hours of 9:00 p.m. and 6:00 a.m. of the following day, parking therein for purposes unrelated to residential uses.
4. Resident shall mean somebody who lives permanently or for more than 30 days in a particular place.
5. Bona fide Guest shall mean somebody who receives hospitality at a home of somebody else or is entertained in one's house. It shall only include such time that

the person is a guest in the home and shall not extend to periods when the person is in school or the conduct of their profession.

- C. Whenever the Director determines that a residential area is impacted by commuter vehicles the Director may initiate the creation therein of a residential permit parking zone. If determined to be controversial, a report of the Director making such determination shall be referred to the Citizens Advisory Traffic Commission (CATC) for a public meeting. If still determined to be controversial by CATC after the CATC public meeting, then the matter shall be referred to the Salem City Council.
- D. In recommending whether an area shall be designated as a residential permit parking zone, the following factors shall be taken into consideration:
  - 1. The local and area wide needs with respect to clean air and the requirements of federal and state laws and regulations.
  - 2. The possibility of a reduction in total vehicle miles driven in the city.
  - 3. The likelihood of alleviating traffic congestion, illegal parking, littering, nuisances, and related health and safety hazards.
  - 4. The proximity of public transportation to the residential area.
  - 5. The desire and need of the residents for residential permit parking.
  - 6. The need for parking in proximity to establishments located therein and used by the general public for religious, health, or educational purposes.
- E. Following the approval of the designation of a residential permit parking zone, the Director shall cause parking signs to be erected in the zone, indicating the times and locations where parking shall be permitted by permit.
- F. The City shall issue residential parking permits. A permit shall be issued upon application only to the owner or the operator of a motor vehicle who resides on property immediately adjacent to the street or other location within the residential permit parking zone. There shall be no charge for the permit other than a processing fee in an amount set the Master Fee Schedule. The permit shall be renewed annually upon such conditions and procedures as the Director shall specify. The permit shall be displayed on the outside of the rear window in the lower left corner. If the vehicle does not have a window located on the rear of the vehicle, the permit shall be displayed on the left rear bumper of the vehicle. The application for a permit shall contain the name and phone number of the owner or operator of the motor vehicle, residential address, the motor vehicle's make, model, vehicle license plate number or the last five of the VIN if a license plate number is unavailable and the number of the applicant's operator's license. The owner or operator of any motor vehicle applying for a residential parking permit shall have a current and valid Oregon vehicle registration, driver's license indicating residency and/or proof of residency.
- G. The Director or designated staff is authorized to issue:
  - 1. Temporary parking permits to bona fide visitors at residences of designated residential parking zones; and

- parking zone; and
3. Temporary parking permits to other persons with the approval of the Salem City Council.
  4. Where a group home or assisted care provider or facility is operated in a single family dwelling located in a residential permit parking area, the dwelling shall be entitled to no more than three (3) annual guest passes provided that the home or provider/facility applies for a residential parking permit and pay all fees required for any other resident for such permit.

### 3.25 Carpool Parking Permits

- A. It is hereby found and declared:
  1. That there are a significant number of persons employed in the area of Salem bounded by Markets Street on the north, 17th Street on the east, Mission Street on the south, and the Willamette River on the west.
  2. That a significant percentage of these persons so employed drive to their places of employment.
  3. That because of a lack of off-street parking places the vehicles are being parked all day on city streets.
  4. That the presence of these vehicles causes vehicular congestion on residential streets, impede the movement of traffic, and unduly restrict entry of residents to their homes.
  5. That such vehicular impaction creates polluted air, excessive noise, and trash and refuse.
  6. That giving preference to persons in carpools for on-street parking, will reduce the number of vehicles being driven to work thus reducing air pollution and conserving energy.
  7. That a preferential on-street carpool parking program is necessary to promote the health, safety, and welfare of the inhabitants of the city.
- B. Whenever the Director determines that a carpool permit parking area is needed, the Director may initiate the creation therein of a carpool permit parking zone. If determined to be controversial, a report of the Director making such determination shall be referred to the Citizens Advisory Traffic Commission (CATC) for a public meeting. If still determined to be controversial by CATC after the CATC public meeting, then the matter shall be referred to the Salem City Council. Any such area so recommended shall be located within that area bounded by Market Street on the north, 17th Street on the east, Mission Street on the south, and the Willamette River on the west. Upon the filing of said report with the Salem City Council, the Council may by resolution proceed to establish on-street preferential carpool parking spaces as it shall determine. The fee for each permit shall be as prescribed by the Master Fee Schedule. The number of permits issued shall be limited to the number of spaces that are established by Council. Permits shall be issued on a priority basis. A maximum of two permits shall be issued to each approved application. If carpool spaces are not available, a waiting list will be established for each carpool zone. When spaces become available, permits will be available to persons on the waiting list. :
