What prompted your interest in applying to serve as a board or commission member?

I have a personal interest in the livability of my community. I grew up in Salem and have watched it improve over the last twenty years. It has become a much more livable place but I still think there is a lot of room for improvement. I want to give back to my community and help the city as it continues to improve into the future.

Please explain how your education, professional, personal, or volunteer experience and knowledge qualify you to serve on the board(s) or commission(s) for which you are applying.

I have degrees two engineering degrees, including one with a strong emphasis in project management, and a law degree. This broad educational background provides me with many skills to successfully work in a team to solve complex problems. I also have over a decade of experience working as an engineer in multi-cultural teams to leverage different viewpoints to further a common goal. I have lived in Salem for over 30 years and know the city very well and currently work as an attorney serving citizens of our city.

List any experience you have with volunteering for the City of Salem or other organizations.

I have volunteer experience with the Salem YMCA when I was a teenager and participated in the teen leaders program. I also recently participated as a community volunteer to read with a local high school student as part of North Salem High School's Avid program.

Briefly explain any experience you have working with your neighborhood association or other public bodies or committees.

During this past year I have started to attend my neighborhood association meetings (NESCA).

Can you commit to attending a minimum of 75 percent of scheduled meetings? (Please refer to the City's website for the meeting schedule. Failure to meet the attendance requirement may result in removal from office.)
