Subject: ANXC-750 for 3821 Ibex Street

It is noted that the intended rezoning is PA – Public Amusement. This is good because Ibex St is a relatively narrow R/W Local Access Road that would not support the addition of traffic associated with multi-family development, for example, on this parcel. Access to the property should be taken through the City Park. No Park expansion access should be designated from Ibex St.
