ORDINANCE 18-23 – Page 1 COUNCIL OF THE CITY OF SALEM, OREGON

1 Salem Revised Code (SRC) 260.010(g)(1) sets forth the following criteria that must be met 2 before approval can be granted to a request for an Annexation without a minor comprehensive 3 plan map amendment or quasi-judicial zone change. 4 $SRC\ 260.010(g)(1)(A)$: The annexation will result in a boundary in which services can be provided in an orderly, efficient, and timely manner; 5 **Finding**: The proposed annexation is for a territory that is approximately 48 acres in size. The 6 7 annexation of unincorporated territory contiguous to the city limits will result in urban services 8 being provided in a more orderly, efficient, and timely manner. Unincorporated territory adjacent 9 to the city limits prevents the orderly expansion of city services because gaps are created in the 10 City's infrastructure, and services within those gaps must be provided by the county, or by the City pursuant to intergovernmental or other agreements. This results in inefficiencies due to 11 12 discontinuous and fragmented methods of providing infrastructure and inefficiencies, as well as 13 additional delays for any development proposal. The boundary resulting from the proposed 14 annexation will provide a more compact and efficient urban form for providing urban services, 15 because the services will be integrated into the existing City infrastructure that exists adjacent to 16 the property, and potential jurisdictional conflicts will not exist. The proposed annexation 17 complies with this criterion. 18 SRC 260.010(g)(1)(B): The land uses and development densities that will be allowed can be 19 served through the orderly, efficient, and timely extension of key urban facilities and services; 20 **Finding**: Comments provided by the various City departments indicate that the territory in the 21 proposed annexation may be served through the orderly, efficient, and timely extension of key 22 urban facilities and services as outlined in the City's adopted master plans, Capital Improvement 23 Plan (CIP) and Public Works and Parks design and construction standards. No improvements to 24 urban facilities and services are needed at this time to serve the Territory. If new development is 25 proposed for the Territory, additional urban facilities and services will be required and will be 26 provided in accordance with the City's adopted master plans, CIP and Urban Growth 27 Management process as set forth in SRC Chapter 200. The Territory proposed for annexation lies 28 outside of the Urban Service Area (USA). Pursuant to the City's adopted growth management 29 program found in SRC Chapter 200, an Urban Growth Area (UGA) Permit is required to provide 30 adequate public facilities, including water, sewer, stormwater, transportation, and park services,

- 1 that may be necessitated by future development. The proposed annexation complies with this 2 criterion. 3 $SRC\ 260.010(g)(1)(C)$: The withdrawal of the territory from any applicable special districts 4 complies with applicable state statutes governing the withdrawal of the territory from those 5 districts: and 6 **Finding**: When withdrawal from a special service district is not automatic, the City Council shall 7 decide on withdrawal from those special service districts. These withdrawals shall be made 8 according to applicable state statutes governing the specific withdrawal. The City will withdraw 9 the Territory from the Salem Suburban Rural Fire Protection District and replace those services 10 with service from the City and the City of Salem Fire Department. ORS 222.520 establishes the process by which the Territory may be withdrawn from service districts at the same time as the 11 12 annexation. No Comprehensive Plan provision or implementing ordinance of the City applies to the withdrawal decision, and none is amended in the process of making the decision. In addition, 13 14 the decision to withdraw the Territory and serve the Territory with City-supplied urban services 15 rather than district-supplied services, does not have significant impacts on present or future land 16 uses. Consequently, the withdrawal decision is not the kind of decision that requires application of land use laws. 17 18 SRC 260.010(g)(1)(D): The public interest is furthered by the annexation of the territory. 19 **Finding**: The proposed annexation of the territory conforms to the Salem Area Comprehensive 20 Plan and City services can be provided consistent with the City's adopted master plans. The city 21 is expected to add land within the Urban Growth Boundary over time to facilitate development 22 commensurate with urban densities found within the city. The annexation of unincorporated 23 territory contiguous to the city limits will result in urban services being provided in a more 24 orderly, efficient, and timely manner and will allow urban levels of development. Therefore, the 25 proposal is found to be in the public interest. 26 **Section 2.** Annexation. The Territory described in "Exhibit A" is hereby annexed to the City of 27 Salem, Oregon. 28 <u>Section 3.</u> Land Use Designations. The zoning for the Territory is prescribed as "RA –
- 29 Residential Agriculture." The Planning Administrator shall add to the official zoning map the
- 30 Territory herein annexed.

1	Section 4. Withdrawal. The Territory is hereby withdrawn from the Salem Suburban Rural					
2	Fire Protection District. Such withdrawal is effective upon, and contemporaneous with, the date					
3	of annexation.					
4	Section 5. The City Recorder shall submit a copy of this ordinance and such other information					
5	as ORS 222.177 requires to the Oregon Secretary of State, and shall provide the notice and					
6	reports required by ORS 222.005(1) and ORS 222.010 to the person or entities described therein.
