Bryan,
Thanks for coming to our NEN meeting on February 7 to explain potential code amendments related to non-profit shelters for victims of domestic violence. At the meeting the NEN board voted to support the proposed changes to the city code, specifically:

- Making domestic violence shelters that serve no more than 10 people a permitted use in RS, RD, RM1, and RM 2 zones
- Removing the requirement that domestic violence shelters in RS zones have to front an arterial or collector street

Thanks,
Nancy
