EDGEWATER AREA NEIGHBORHOOD PARTNERSHIP

The Neighborhood Partnership (NP) Program is a collaborative process that engages stakeholders to work together to identify and address issues in specific neighborhood areas. Stakeholders include schools, churches, community groups, City of Salem and anyone interested in livability of the neighborhood area.

In 1997, in response to an increased need for social services in the South East Salem Neighborhood Association (SESNA) area, the City in conjunction with area stakeholders, formed a Steering Committee. Over the years, the structure has changed, but the Partnership

Program still serves to solicit neighborhood input, guide the process, set goals and coordinate a variety of efforts to improve neighborhood livability. Through a competitive application process, the Edgewater District of West Salem was selected to receive City support as a Neighborhood Partnership Area (January 2014 - December 2015) and then selected for an additional term (through December 2017).

Proposals are evaluated by City staff and scored based upon demonstrated neighborhood need, goals and readiness of partners to work with the City in addressing them. The Edgewater Area's high score reflected the great community building work that is already happening in this part of town, as well as partners' commitment to increasing community connectivity, promoting a safe environment, increasing community activities and opening a community center.

Over three years, the group expanded from 9 original partners to 85, developed an Edgewater free resources calendar, organized annual Super Saturday events for neighbors, supported Nuestra Casa a learning/community center, supported numerous neighborhood clean up efforts and celebrations, Edgewater Art Walks, monthly Edgewater Walking Cruises, and information hubs.

The total value of the increased civic activity and positive connections made due to Partnership efforts in the Edgewater Area is incalculable. Benefits, which can extend beyond the boundary of the Partnership area, include tool development, community connections, lessons learned, and projects that can be replicated in other neighborhoods.

Contents

The pages that follow outline Partnership efforts in this area over the last year as well as indicators of community change for West Salem, and when possible, the Edgewater Area specifically, such as shifts in homeownership versus rental housing, changes in demographics, crime trends and park vandalism. The direct impact Partnership efforts have had on these indicators of community change is difficult to conclude.

Data Notes: Households with children include any households with people under age 18, related or not. Multigenerational households are families with 3 or more parent-child relationships. Multigenerational households are reported only to the tract level. Esri estimated block group data, which is used to estimate polygons or non-standard geography. Average family size excludes nonrelatives. Income is expressed in current dollars.

High Poverty Hotspot

Edgewater is a district within the West Salem Neighborhood Association. Demographics for West Salem are not an accurate representation of the Edgewater area. The Edgewater Area is a high-poverty *hotspot*.

The Census Bureau defines a poverty area *hotspot* as a tract with a poverty rate of 20 percent or more. The Oregon Department of Human Services (DHS) defines a high poverty hotspot as a census tract or contiguous group of tracts with poverty rates of 20 percent or more for two consecutive measurements.

DHS Office of Forecasting, Research and Analysis measured poverty rates in the Census Bureau's 2009-2013 and 2008-2012 American Community Survey (ACS) and identified Census tract 51 (Figure 1) in West Salem as a high poverty hotspot and created a profile of its residents using Census Bureau, DHS, and Oregon Employment Department (OED) and own administrative data on Supplemental Nutrition Assistance Program (SNAP) clients.

Continued on page 9

WEST SALEM DEMOGRAPHICS

Continued from page 8.

The purpose of the DHS report, “is to identify high poverty areas and describe residents and SNAP clients living in them. Characteristics of the hotspot are compared with the county and Oregon.

According to Census Bureau and DHS data, 15 percent of Polk County’s population, 27 percent of its poor, and 25 percent of its SNAP clients live in this area.

CIVIC ENGAGEMENT

NEIGHBORHOOD ASSOCIATION MEETINGS

Anyone who lives, works, or own property in Salem is a member of at least one Neighborhood Association (NA). Each volunteer run group is unique,. Generally, a board elected by the NA membership meets regularly to address local issues and concerns and improve their neighborhoods. NAs involve residents in local decision-making that affects their neighborhood. Associations also consider and advise on issues like City budget, park improvements, land use, transportation, and crime prevention, and may organize neighborhood activities. City staff provides support and information to the NAs.

West Salem Neighborhood meets two times per month, on the first and third Monday.
(1st/3rd, X indicates a cancelled meeting).

NATIONAL NIGHT OUT BLOCK PARTIES

Each year on the evening of the first Tuesday in August, neighbors are encouraged to turn on outside lights and spend the evening outdoors with fellow neighbors and police. Police agencies support the event by attending neighborhood block parties and bringing along crime prevention information and mascots. Sponsored by the National Association of Town Watch since 1983, it is an event celebrated in all 50 states, US territories, military bases worldwide and many Canadian cities. Numbers below reflect total parties registered with the Salem Police Department and unregistered parties.
