Interests & Experiences**What do you feel you can contribute as a board or commission member?**

I think I can contribute to the board as a commission member because of couple of things. First that i'm an active school member that looks at issues from a close view, as I have suffered a form of hate crime before I know what it's like and do everything I can to get involve and try to resolve the problem. Second I have a passion for helping my community and beyond be a better place for everyone, I believe everyone deserves to feel welcome, have rights, contribute and most importantly feel safe. Finally I think I have ideas, the perspective to help my community and the passion to be on this commission and help our people of Salem.

What prompted your interest in applying to serve as a board or commission member?

I have always helped my local community/neighborhood and my surrounding schools and locals. I have always helped with issues such as neighbor issues and helping people in need by getting them whatever they need such as food or blankets. I have also helped my primarily Latino community tackle issues regarding to racism, that has sparked a passion inside me that wants to help on a bigger scale. I feel like this is my opportunity to help a bigger community, to help a place I have called my home since I was born.

Please explain how your education, professional, personal, or volunteer experience and knowledge qualify you to serve on the board(s) or commission(s) for which you are applying.

I think my personal experience of experiencing racism has helped me open my eyes and see that it's not okay to discriminate just because of race or other things. Other personal experiences such as helping people being discriminated towards and seeing problems at school have well equipped me for this opportunity. My other experiences have been from being a member of the Student Equity Committee that aims to help solve these similar issues in our schools. Being member of this committee has really helped me get skills such as public speaking, collaboration and coming up with ideas on how everyone can be equally supported regardless of status and other factors.

List any experience you have with volunteering for the City of Salem or other organizations.

I have Volunteered Over 320+ Hours at Richmond Elementary doing multiple things from cutting papers to helping around the classroom reading books, helping them with their work to organizing events such as reading nights for the school.

Briefly explain any experience you have working with your neighborhood association or other public bodies or committees.

As stated I have worked and been a member of the Student Equity Committee helping solve issues and make our schools better. The other organization that I am proud of being a member of is the Salem Chamber Of Commerce Leadership Branch. This organization has helped me gain more skills like professionalism and working with adults. It has also helped me with getting closer to my community and city as with visit and learn about local businesses and how Salem works because of our locals, I think this is an important thing for everyone to know how important our local people are.

Can you commit to attending a minimum of 75 percent of scheduled meetings? (Please refer to the City's website for the meeting schedule. Failure to meet the attendance requirement may result in removal from office.)

Question applies to Salem Human Rights Commission

As part of its mission, the Human Rights and Relations Advisory Commission strives to reach out to the Salem community. Please describe your affiliations within the community that may aid the Commission in this mission.

The Student Equity Committee that helps solve problems within our schools, helps students who need the help feel equal to everyone and help everyone feel included. Richmond Elementary where not only I help students but also parents when they are in need. Finally my local neighborhood where I always try to help and solve issues that we might face. These are some great affiliations that have taught me so much about not only myself but my local community.
