I live near Bush Park!

Re: Hand Hygiene at events in Bush or Riverfront
Parks for events.

I object to the sale of hand hygiene in the
two parks at any time, even special events!
Both parks, open to all citizens, include
placemarks for children, as well as paths
for walkers & joggers, & picnic benches
for everyone.

If hygiene is being sold, there will be strong
users who wander around from their event
to other parts of the park as well. If I want
to know, I don't want to be near
where people are drinking these kinds of
drinks. I know some of them won't be
drunk, but it's a possibility and don't
feel comfortable with it. I won't go to Bush
Park if this happens, on these days, & this not fair!

Please - no sale of hand hygiene in
Bush's Pasture Park or Riverfront Park,
even for special events!

Subject: no alcohol in parks, PLEASE

People change when they've ingested alcohol. Even small amounts. PLEASE do to allow the sale/use of alcohol in Salem Parks. If it must be in parks, designate a tiny, obscure park for the die hard drinkers. Financial gains of vendors is no excuse for increasing stress level in parks, which is what alcohol will do.

thank you
Joy Klaus

So Patricia. Instead of being know as the "Lady of Fresh Water and Safe Streams" does this mean you'll become the "Booze Babe"?

It is all about facilitating entertainment and finance rewards for Park use.

Will this mean that the parks will be used for Wine Parties? Suspect they happen along most of the City parks fringes right now. At the least under the bridge.

Seems to me 14 percent liquor is not needed in parks... It is better served in restaurants.

What restrictions are considered?

Will it only be permitted inside park buildings or will users be able to walk the park with a Red Solo Cup?

The announcement did not have a link to the staff report.
Thank you for your insight.

Subject: Alcohol in the park....

This is my personal feelings regarding alcohol in the park, I am against it being in a space that is for family use for family fun. My personal experience with alcohol has not taught me that people as a rule are responsible for the consumption of alcohol in the public space. There is always the possibility of underage drinking and bad behavior of the adults. I would feel very uncomfortable going to these parks knowing this was being allowed. Also there is the extra cost of police or someone to monitor the public during this time. And the prospect of the public getting behind the wheel of a vehicle driving away from the park. Would the City of Salem be willing to take the responsibility with the public too?
