I have served on the following citizen advisory committees, civic, charitable or other organizations (include dates & length of services)

I am retired from the United States Air Force and worked with the Department of Energy. Locally I have served on the East Lancaster Neighborhood Association for a number of years.

Please explain what you believe you can contribute to the advisory board you are interested in serving on. Be brief, but be as specific as possible.

Before retirement I was a Personnel and Security Administrator working with the Department of Energy. I had over 100 employees working directly under my supervision. A large part of my duties involved budgeting for this Department. This entailed an understanding of budgeting practices and processes. As with many large entities the goal is to create a reasonable budget and stay within that budget. Although this is a simple statement, it is a difficult process. I developed a great deal of expertise in this process and I would like to put this experience to good use in aid to the City of Salem and the Citizen Budget Committee. I understand that Ward 6, my Ward, is unrepresented at this time and I would like to fill that vacant position.
