Petition in opposition to constructing a public pathway through HISTORIC SALEM PIONEER CEMETERY

City-owned Salem Pioneer Cemetery was established in 1854. It is a Salem Historic Landmark, a designated Goal 5 Resource under statewide land use planning rules, and it is listed in the National Register of Historic Places. Its seventeen acres of fenced grounds are open to destination visitors from dawn to dusk every day of the year.

I (we) would regret to see thirty-five years of painstaking effort in rehabilitating the grounds and repairing weathered, broken, and vandalized monuments of Oregon pioneers, military veterans, government leaders, citizens and community-builders at risk of being undermined by introduction of a public short-cut or pathway through the cemetery between the Fairmount and Candalaria neighborhoods. I (we) believe a throughfare path would increase the cemetery's vulnerability to vandalism and misuse.

Rather than add to the burden of maintaining this hallowed place, I (we) would like the City to continue to protect the cemetery with only its current public access.

I (we) would regret to see thirty-five years of painstaking effort in rehabilitating the grounds and repairing weathered, broken, and vandalized monuments of Oregon pioneers, military veterans, government leaders, citizens and community-builders at risk of being undermined by introduction of a public short-cut or pathway through the cemetery between the Fairmount and Caudalaria neighborhoods. I (we) believe a throughfare path would increase the cemetery's vulnerability to vandalism and misuse.

Rather than add to the burden of maintaining this hallowed place, I (we) would like the City to continue to protect the cemetery with only its current public access.

GRAND TALLY ALL SIGNATURES 250

Petition in opposition to constructing a public pathway through HISTORIC SALEM PIONEER CEMETERY

City-owned Salem Pioneer Cemetery was established in 1854. It is a Salem Historic Landmark, a designated Goal 5 Resource under statewide land use planning rules, and it is listed in the National Register of Historic Places. Its seventeen acres of fenced grounds are open to destination visitors from dawn to dusk every day of the year.

I (we) would regret to see thirty-five years of painstaking effort in rehabilitating the grounds and repairing weathered, broken, and vandalized monuments of Oregon pioneers, military veterans, government leaders, citizens and community-builders at risk of being undermined by introduction of a public short-cut or pathway through the cemetery between the Fairmount and Candalaria neighborhoods. I (we) believe a throughfare path would increase the cemetery's vulnerability to vandalism and misuse.

Rather than add to the burden of maintaining this hallowed place, I (we) would like the City to continue to protect the cemetery with only its current public access.

It is a Salem Historic Landmark, a designated Goal 5 Resource under statewide land use planning rules, and it is listed in the National Register of Historic Places. Its seventeen acres of fenced grounds are open to destination visitors from dawn to dusk every day of the year.

I (we) would regret to see thirty-five years of painstaking effort in rehabilitating the grounds and repairing weathered, broken, and vandalized monuments of Oregon pioneers, military veterans, government leaders, citizens and community-builders **at risk of being undermined by introduction of a public short-cut or pathway through the cemetery** between the Fairmount and Candalaria neighborhoods. I (we) believe a throughfare path would increase the cemetery's vulnerability to vandalism and misuse.

Rather than add to the burden of maintaining this hallowed place, I (we) would like the City to continue to protect the cemetery with only its current public access.

I (we) believe a throughfare path would increase the cemetery's vulnerability to vandalism and misuse.

Rather than add to the burden of maintaining this hallowed place, I (we) would like the City to continue to protect the cemetery with only its current public access.

Petition in opposition to constructing a public pathway through HISTORIC SALEM PIONEER CEMETERY

City-owned Salem Pioneer Cemetery was established in 1854. It is a Salem Historic Landmark, a designated Goal 5 Resource under statewide land use planning rules, and it is listed in the National Register of Historic Places. Its seventeen acres of fenced grounds are open to destination visitors from dawn to dusk every day of the year.

I (we) would regret to see thirty-five years of painstaking effort in rehabilitating the grounds and repairing weathered, broken, and vandalized monuments of Oregon pioneers, military veterans, government leaders, citizens and community-builders **at risk of being undermined by introduction of a public short-cut or pathway through the cemetery** between the Fairmount and Candalaria neighborhoods. I (we) believe a throughfare path would increase the cemetery's vulnerability to vandalism and misuse.

Rather than add to the burden of maintaining this hallowed place, I (we) would like the City to continue to protect the cemetery with only its current public access.
