Councilor Jackie Leung has asked to be on numerous committees, each one she is desperately needed on. The Salem POC community only has one representative on the council and that is councilor Leung. Way too many racist policies are being made because there isn't anyone there advocating on our behalf. We have too many fake allies and outright enemies on these committees and deserve to be heard. Stop trying to shut councilor Leung out and put her on the committees she's requested to be on!

Subject: Committee Assignments
Date: Monday, February 8, 2021 8:37:30 AM

In reviewing the new committee assignments made by the Mayor, there is what most certainly must be an oversight: Councilwoman Jackie Leung has not been given any committees on which to serve. As the only woman of color on the City Council, it is imperative that her voice be heard, that our communities of color be represented. Jackie has previously indicated her preference to serve on these committees: Board and Commission Appointments, Council Rules and as an alternate for Climate Action. I strongly urge the Mayor to immediately right this wrong and assign Councilwoman Leung to these three committees. Both the optics and reality of this “oversight” do not bode well for Salem’s new determination to be viewed as a welcoming city for all people, a place where hate and racism will not be tolerated.

Mr. Mayor and Council:

I was dismayed to see that Councilor Jackie Leung was not appointed to any Council committees by the Mayor for 2021. I request that this oversight be addressed. I understand that Councilor Leung would like to be appointed to two committees: Board and Commission Appointments and Council Rules, and as an alternate to the Climate Action Committee. I don't think this is too much to ask for (all other Councilors received more than two appointments, I believe).

Respectfully,

Jim Scheppke, Ward 2

I hope that the omission of Councilwoman Leung from a committee assignment is an oversight, as in this political and social climate her voice is particularly important. I hope the Mayor will take this under consideration and give Salem the best possible chance to have the inclusive government that Councilwoman Leung was elected to fulfill. Please don't let this mandate and tremendous opportunity given to us by Salem voters go untapped.

I reviewed the new committee assignments made by the Mayor and noticed what I suspect is unintentionally overlooking assigning Jackie Leung her committee assignments.

Jackie Leung is the only woman of color on the City Council and her voice is especially important to be heard for a diverse community such as Salem.

Jackie has previously noted that her preference of committees are: Board and Commission Appointments, Council Rules, and as an alternate for Climate Action.

I strongly urge the Mayor to assign Jackie Leung to committees without delay as having her without assignments looks bad for the welcoming diversity community that Salem wishes to become. We do indeed wish to be a city that welcomes all people to help to ammend our past of racism and hate.

Respectfully,

Date: Monday, February 8, 2021 1:54:35 PM

Following is my testimony for tonight's meeting:

I urge city council to rectify this situation and make the committee appointments Councilor Leung has requested.

Councilor Leung has expressed interest in appointment to the following committees: 1) Board & Commission Appointments and 2) Council Rules and would like to serve as an alternate on Climate Action. The appointments are made by Mayor Bennett.

Councilor Leung has been a strong and consistent advocate for the people of Salem. She is also the only woman of color on the City Council. I am disappointed (but not surprised) by this apparent effort to shut her out and minimize her advocacy voice on important committees.

Date: Monday, February 8, 2021 8:15:12 AM

Dear Mayor Bennett,

Councilor Leung is an important advocate in our community. She listens, supports and connects with a diverse constituency. She is willing to speak up and lead on difficult issues. We need her voice to be heard. I ask that you honor the request for Councilor to be appointed to the following Salem City Council Committees: 1) Board and Commission Appointments and 2) Council Rules and 3) alternate for Climate Action.

Thank you,
Lorie Fontaine

Mayor & City Council,

I wonder why councilor Leung was only given one committee assignment? Was this by her choice?

If it wasn't by her choice I respectfully request that the committee assignment process be reviewed and changed as soon as possible. This process may need immediate remedy. It makes no sense as to how some people have several and another only one.

Subject: Jackie Leung Committee Appointments
Date: Monday, February 8, 2021 3:31:17 PM

I thoroughly support giving Jackie Leung a seat on the Boards & Commissions committee. Ms. Leung has worked tirelessly to represent her constituents and to bring a much needed voice to the City Council for POC.

To shut her out, or to attempt to minimize her role, will greatly impact the citizens of Salem negatively, not to mention the negative light that will shine upon the council, if this is allowed to happen.

Give her the committee appointments she desires and deserves.

Respectfully,

Lisa Walters

It is astonishing that Councilwoman Jackie Leung, the only woman of color on the City Council, has not been given ANY committee assignments, less than a month after the Council claimed to be "committed to the elimination of all forms of racism everywhere it exists, including institutional racism." What could possibly be the justification for this oversight? Councilwoman Leung has previously indicated her preference to serve on these committees: Board and Commission Appointments, Council Rules and as an alternate for Climate Action. I strongly urge the Mayor to immediately assign Councilwoman Leung to these three committees. How can Salem rise above its reputation for being behind the times, and how can we trust that the City gives any consideration at all to making Salem a better place to live, when we see this type of backward behavior over and over again?

Date: Monday, February 8, 2021 1:11:13 PM

City Leaders,

With respect to agenda item 5.a. 2021 City Councilor Committee Assignments, we wonder why Councilor Leung, the only woman of color on the Salem City Council, has not been appointed to any committees except as an alternate to the Water/Wastewater Task Force.

Councilor Leung should immediately be assigned to committees, specifically the ones in which she expressed interest, 1) Board and Commission Appointments; 2) Council Rules; and 3) alternate for Climate Action.

Councilor Leung has been a strong and consistent advocate for the people of Salem. We are outraged by this effort to shut her out and minimize her voice on important committees. We urge the mayor and City Council to correct this matter and appoint her to the committees stated above at tonight's City Council Meeting.

I was not at all surprised to hear that once again, the Mayor has made yet another racist decision. Some may call his decisions around racial relations in our city ignorant, yet time and time, he has been educated by the BIPOC community in our city and still continues to make these decisions. That makes him racist, not ignorant.

His latest decision to not assign Councilwoman Jackie Leung to any of the committees in which to serve is unacceptable. Councilwoman Leung has stated her preference is to serve on the Board and Commission Appointments, Council Rules and alternatively, Climate Action but has been assigned to no committees. Chuck clearly does not value the voice of the only woman of color on the city council. But yet, I understand Jim Lewis has been assigned to his top choices. FYI, as a constituent of Jim Lewis's district, I have sent two emails to him, at his city council address, asking him to address issues in our city and did not even receive a generic "I've received your email response (I'm attaching them here). Yet somehow, this white man who finds it acceptable to ignore his constituents has been assigned to committees while Leung has not.

Mayor, you bring shame to our city. You have mishandled the Salem PD, you have never taken a stand against the racist hate groups who have flocked to our city (of course they have, you have allowed it by your silence), you have silenced BIPOC voices. You work for us, make the changes and take a stand. If you cannot do that, resign.

Dear Jim,

I was very disappointed to see that the city council failed to defund the Salem Police. I have spent my entire career in social services, both locally and statewide and have experienced first hand the lack of services around mental health in our community. I have experienced having to respond to someone in the midst of a mental health crisis myself because there are no crisis workers available. I have, on occasion, been in a position where, for safety reasons, I have had to call local LEA for assistance and while my interactions with the officers and deputies were pleasant as a professional white woman, it was clear that their knowledge of mental illness and how to work with folks suffering from mental illness was limited. If we were not using LEA to attend to social service crises, that would be more acceptable but we are, And by approving the city budget last night, you stamped your approval on continuing to use inexperienced, untrained officers to handle social services crises instead of trained social service professionals. As your constituent and a member of this community, this is completely unacceptable.

Watching the video of the Salem officer advise the white supremists on how to avoid ramifications for breaking curfew was disgusting and disheartening. To see a truck flying a nazi flag, circling the block of the business owned by a POC who is actively fighting for the Black Lives Matter movement made me sick. I have lived in this city since I was four years old: this is my hometown, the one that I love, the one that I advocate for. I want to be proud of my city, I want to know we, as a community are doing everything possible to fight racism, to end homelessness, to support those who need social service. Sadly, I can't say we are doing any of those things.

Do better Jim, Do better for me, do better for West Salem, do better for Salem. Do better for our POC. Do better for our homeless. Do better for our community members who are in need of social services. Do better: defund the Salem Police and use that money to support the social services our community so desperately needs..

Sincerely,

Amber Padilla

Jim,

Let's see if a second email gets any kind of response from you, my first email certainly did not.

I am completely ashamed and appalled to call you my councilperson after your behavior at the city council meeting tonight. To say that all hate matters and try to call out the BLM and antifa movement in the middle of a conversation about taking a stand against white supremacy in Salem is abhorrent. You should be ashamed, you do not represent me, you do not represent the people I know. How do you intend to fix this?

Thank God your fellow council people are brave, strong and have a desire to do the right thing and called you out on this behavior. Our city needs more of them and less of you.
