Message	<p>Hello City recorder. My name is Ron Sterba board member SEMCA neighborhood association in Salem. I'd like to propose again for the budget the proposed pedestrian and bike Path sidewalk along 25th St., Southeast from Madrona and 25th intersection north to Mission St., on east side of 25th.st Se. With the McGill crest whitening project in the works the bike lanes from McGilchrist will connect into the pedestrian bike lane along 25th St. With new information that Jerry's hardware store will be building I never resent vacated the property of Capitol Chevrolet. Construction work and the widening of Mission Street at the proposal Jerry's hardware is complete as of last month. When the proposal pedestrian bike path on 25th St. our residence of South Salem Will be able to walk to Jerry's with a secure feeling and your proposed walk. I'd like to speak on this matter as a member of SEMCA neighborhood association. Ron sterba</p>
