Executive Summary

April 21, 2021

To: The Honorable Mayor, City Council members, Budget Committee members, and Salem Community

I am pleased to submit the City's Capital Improvement Plan for Fiscal Years 2022 through 2026. A capital improvement plan (CIP) is a five-year plan for financing improvements to major public assets based on City-adopted master plans, goals, and policies. The purpose of a CIP is to match financial resources with the capital needs of a growing community and to preserve or enhance existing capital assets to provide efficient City services. The CIP is not a wish list. Only projects with an identified and real funding source are included in the CIP. Needs, such as City buildings and parks, without a funding source are excluded from the plan.

The Capital Improvement Program is governed by Council Policy C-9, which includes the following goals:

1. create a transparent CIP process;
2. establish a risk-based priority list;
3. match the priority list to limited resources in a thoughtful and responsible manner; and
4. establish an internal CIP review committee to oversee the process.

For this CIP, the City of Salem Budget Committee will hold a public hearing on April 21, 2021. Staff provides notice to the community and neighborhood associations, and at the public hearing, provides a presentation designed to educate both the Budget Committee and the public about capital planning and the anticipated projects. At the conclusion of the public hearing, the Budget Committee will either recommend the CIP as presented, or make changes deemed appropriate. On June 21, 2021, the CIP as recommended will be brought to the City Council to consider its adoption. Staff completes the annual cycle by publishing the adopted CIP.

The City's website has information that supplements what is contained in this document:

www.cityofsalem.net/projects

There, you will find an interactive map to help locate the projects described in the CIP. You will also find documents related to current and prior CIPs.

As the CIP preparation is a Citywide effort, I would like to thank the Leadership Team and their staff members for their dedication in producing this CIP document. The extra time and effort expended by this dedicated group is an example of the teamwork prevalent throughout the organization. Thank you for the excellent work.

Respectfully submitted,

Steve Powers
City Manager

How To Use This Document

Structure

The CIP document is organized into three levels: groups, categories, and projects. At the highest level are the four groups: Community Facilities, Municipal Facilities, Transportation, and Utilities. Within each of these groups are categories of infrastructure. Summaries of planned expenditures by category and funding source are presented for each of the four groups. The majority of this document is made up of individual project details.

Funding

The CIP is primarily a planning document, and lists projects where likely funding sources have been identified for future years. This document is not intended to completely match the proposed FY 2022 budget for several reasons:

1. it excludes projects with a total cost of under \$50,000 dollars;
2. it excludes projects that were implemented mid-year;
3. it excludes carryover projects that have appeared in prior CIP documents; and
4. it excludes administrative program costs.

For additional information on current projects, please visit the website projects page:

www.cityofsalem.net/projects

Additional Information

Please visit the CIP website for additional information. The site includes forms for residents to identify potential CIP projects, prior year CIP documents, and an interactive project map that visually identifies projects listed in this document.

www.cityofsalem.net/Pages/capital-improvement-plan.aspx

Funding Source Descriptions

Airport Fund:	Program revenue from the Salem Municipal Airport
City of Keizer:	City of Keizer share of mutual projects
Development District:	Fees charged within the development districts
Donations:	Donations from private parties
Federal Highway:	Federal Grants from the Federal Highway Administration
General Fund:	General funds allocated to capital construction projects
GO Bond:	General Obligation Bond funds
Lodging Tax:	Revenue from the City of Salem Transient Occupancy Tax
Parking / Leasehold:	Parking or Leasehold funds generated by the downtown parking tax or lease revenue
RAISE Grant:	"Rebuilding American Infrastructure with Sustainability and Equity" federal grant program
Revenue Bonds:	Revenue Bond funds
SDC-Parks:	Parks System Development Charges
SDC-Transportation:	Transportation System Development Charges
SDC-Wastewater:	Wastewater System Development Charges
SDC-Water:	Water System Development Charges
SRETC:	Salem Renewable Energy and Technology Center
State Grant:	Grants from the State of Oregon
State Highway:	State of Oregon shared revenue primarily from the State motor vehicle fuel tax
Streetlight Rates:	Revenue from the Streetlight Fee charged on the City utility bill
Trust & Agency:	Donations or other revenue sources designated for a specific purpose
Urban Renewal Agency:	Funding from the Salem Urban Renewal Agency
Utility Rates:	Revenue generated from utility rates charged for water, wastewater, and stormwater

Prioritization

CIP projects are developed throughout the year by staff as they assess operational and system needs, review long range plans, and receive resident input. Once projects are identified, they are reviewed and scored using a minimum of eight criteria. Each criteria score is weighted based on its importance to the asset group. Not all criteria are applied to all asset groups or funding sources. After scoring is complete, the projects are ranked and prioritized for inclusion in the CIP based on funding availability. While the majority of Public Works projects are subjected to a formalized scoring process due to the large volume of projects, departments with smaller project lists are generally not scored. Projects associated with approved Urban Service Area (USA) amendments pursuant to SRC 200.015 are fully committed within this document; not all USA amendment projects are listed individually because prioritization of each project is not known at this time.

Parks / Parks SDC Scoring Criteria

Asset Criticality and Condition (not for SDCs)
Tourism Development
Safety / Regulatory Mandates
Relationship to Other Projects / Coordination

Airport

The Salem Municipal Airport, also known as McNary Field, is owned and operated by the City of Salem and supports general aviation, military, and air cargo aircraft operations. The airport was originally established in 1928 and occupies approximately 750 acres in southeast Salem in close proximity to the Interstate 5 corridor, Mill Creek Corporate Center, Fairview Industrial Park, and Southern Pacific Railroad line. The airport is certified by the Federal Aviation Administration (FAA) as a commercial service airport under Federal Air Regulations and included in the National Plan of Integrated Airport Systems (NPIAS) as a public use airport.

Design and construction of renovations to the Flight Deck Restaurant located at the Salem Municipal Airport. Renovations include new roofing, structural repairs to the glulam beams, siding, painting, and restroom Americans with Disabilities Act (ADA) upgrades.

Project Number: 0001067
Category: Airport Ward: 2, 3
Neighborhood: South East Salem Neighborhood Association (SESNA), Southeast Mill Creek Association (SEMCA)

Title: Airport Weather Building Renovations

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
Airport Fund	192,000	-	-	-	-	192,000
Current CIP Total:	\$ 192,000	\$ -	\$ -	\$ -	\$ -	\$ 192,000

Amount Funded in Prior Years: -

Total Estimated Project Cost: \$ 192,000

Design and construction for new roofing, siding, and painting of the Weather Building at the Salem Municipal Airport.

Buildings

Salem's City Hall is one of three buildings, including the Salem Public Library and City Council Chambers, that comprise the Civic Center campus. The campus was constructed in 1972 and is the seat of the municipal government. Many City services are centrally located at City Hall. It currently houses Salem's one-stop access for planning, permitting, and building inspection services; the municipal courtroom and violations bureau; cashiering services for payment of utility bills, parking tickets, and court fines; purchasing management and bid solicitations; and numerous meeting rooms utilized by staff, as well as members of the community serving on advisory boards and commissions.

The City Shops Complex, located on 22nd Street SE, is used primarily by the City of Salem to operate and maintain infrastructure including streets, parks, and utilities. Also located within the complex are employees and buildings focused on the maintenance and repair of the City's inventory of vehicles, motorized equipment, historic buildings, municipal buildings, and radio communications infrastructure and equipment.

Buildings Projects by Funding Source

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total

Removal of the existing coating, resloping the surface to improve drainage, and recoating.						

Information Technology

The City of Salem Information Technology (IT) Department is responsible for the central technology services required by all City departments and maintenance of the City's technological infrastructure. IT provides solutions and support for network services, PC support, business application development and maintenance, geographic information systems (GIS), and telecommunications. The IT Department provides the vision and leadership for these services through strategic planning and creative and economical business decisions.

The City's IT Department supports the following:

- 570 databases
- 19 enterprise applications
- 250 individual applications
- 2,060 workstation computers
- 117 terabytes of storage capacity and 145 terabytes of backup storage
- 74 million files backed up nightly
- 325 servers (132 physical and 189 virtual)
- 262 individual switches, 4 core switches and 6 fabric interconnect switches
- 3,132 square miles of GIS data services
- 29 agencies, including the City, for 911 dispatch system support

This section of the CIP also includes projects to replace or upgrade technology not directly managed by the Information Technology Department. An example of this is the computer-aided dispatch and mobile data system for the 9-1-1 call center.

The current Court Management System was purchased in 2006 and has limited functionality and reporting capabilities. A new Court Management System will be more stable, intuitive, flexible, and user-friendly. The new system will also support increased automation and move currently manual processes to the system.

Parking Structures

The City of Salem owns and maintains six parking structures in downtown Salem:

Chemeketa, Liberty, and Marion parking structures consist of 764,000 square feet of parking and tenant occupied spaces with nine elevators. These structures are operated under the Downtown Parking Fund (170). Completion of the following recommended projects will help preserve and maintain the overall functionality and condition of these structures and their operating systems.

Pringle, City Hall, and Central Library parking structures consist of more than 350,000 square feet of parking space with two elevators. These structures are operated under the General Fund (101). Funding is needed to prevent further deterioration of these structures and their operating systems.

Transportation Group Summary

The Transportation group includes infrastructure and services that support the transportation needs of the City. Within the group, the Streets category covers classifications ranging from sidewalks to traffic signals, and the Streetlight Category covers capital costs related to the streetlight system. The projects contained in the CIP are consistent with the priorities found in the Salem Transportation System Plan, which serves as the community's master plan for transportation policies, programs, and infrastructure projects.

Streetlights

The City of Salem operates and maintains an extensive streetlight system with an inventory of over 12,000 lights. The capital expenditures in this category are related to the installation of new streetlights in areas of the City with deficient lighting, replacement of old and damaged poles, and replacement of the downtown core area decorative streetlights with LED powered decorative streetlights.

Title: Streetlight Pole Rehabilitation Program

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
Streetlight Rates	100,000	100,000	100,000	100,000	100,000	500,000
Current CIP Total:	\$ 100,000	\$ 100,000	\$ 100,000	\$ 100,000	\$ 100,000	\$ 500,000
Amount Funded in Prior Years:						300,000
Total Estimated Project Cost:						\$ 800,000

Design and construction to rehabilitate or replace damaged and / or unserviceable streetlight poles at various locations.

Streets

The City of Salem operates and maintains an extensive system of streets and supporting infrastructure. Services provided include asphalt pavement repairs, maintenance overlay paving, concrete repairs, surface sealing for preventative maintenance, traffic signal operations, pavement markings and striping, traffic sign installation and maintenance, street sweeping, debris and leaf removal, right-of-way mowing, and snow and ice response.

Salem's street system includes an inventory of over:

- 1,567 lane miles of streets
- 57 bridges
- 269 traffic signals
- 223 school speed zone flashers
- 31,200 signs
- 929 miles of sidewalks

Neighborhood:	Southeast Mill Creek Association (SEMCA)					
Title:	Gaia Street SE, Phase II, Salem Renewable Energy and Technology Center (SRETC)					
Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
SRETC	2,500,000	-	-	-	-	2,500,000
Current CIP Total:	\$ 2,500,000	\$ -	\$ -	\$ -	\$ -	\$ 2,500,000
Amount Funded in Prior Years:						-
Total Estimated Project Cost:						\$ 2,500,000

The first phase of Gaia St., the north-south street at the Salem Renewable Energy and Technology Center, was completed in 2009. The remaining approximately 800 feet of street and related utilities will need to be constructed when development of the northern 25 acres occurs. Funds were budgeted in FY 2015 for design and a portion for construction. Urban Development will not initiate design until there is a buyer and future development requires the second phase of the road.

Current CIP Total:	\$ 80,000	\$ -	\$ -	\$ -	\$ -	\$ 80,000

Amount Funded in Prior Years: -
Total Estimated Project Cost: \$ 80,000

Design of metal arches for alley entrances to increase downtown vibrancy.

Utilities Group Summary

The Utilities Group includes projects related to the stormwater, wastewater, and water categories. Capital projects in this group reflect construction required to maintain and expand the stormwater collection system, wastewater collection and treatment systems, and the water source and delivery systems.

Utilities Projects by Category

Category	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total

Stormwater

The City of Salem provides its residents with stormwater services within an area that comprises more than 48 square miles and 13 urban watersheds. The services include stormwater system operation and maintenance, stormwater quality monitoring, public education and involvement, flood response, street sweeping, stream cleaning, spill response, municipal regulations, stormwater quality complaint response, facility inspections, and capital projects for growth, replacement, efficiency, and level of service compliance.

Salem's stormwater collection system consists of more than:

- 85 miles of open channels and ditches
- 90 miles of waterways
- 420 miles of pipes and culverts
- 900 detention basins
- 22,000 storm drainage structures
- 5 controls, diversions, and fish passage structures
- 30 monitoring and water quality facilities.

The stormwater system has an estimated replacement value of approximately \$950,000,000.

Amount Funded in Prior Years: -Total Estimated Project Cost: \$ 444,760

Acquisition of property from the developing parcels as needed to improve storage conveyance of stormwater.

Project Number: 0001143

Category: Stormwater

Ward: 2

Neighborhood: South East Salem Neighborhood Association (SESNA)

Title: Mill Race Deck Improvements

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
Utility Rates	250,000	-	-	-	-	250,000
Current CIP Total:	<u>\$ 250,000</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 250,000</u>

Amount Funded in Prior Years: -Total Estimated Project Cost: \$ 250,000

Design and construction to replace deteriorated timber deck on Mill Race along Ferry St SE in the vicinity of 14th St SE and 15th St SE.

Wastewater

The City of Salem provides wastewater services to an area that comprises more than 60 square miles, including the City of Salem, the City of Turner, and the City of Keizer. The combined peak day demand is about 200 million gallons per day. The services include wastewater operation and maintenance of collections, treatment, and disposal systems. This also includes monitoring, public education and involvement programs, spill response, municipal regulations, wastewater quality compliance, facility inspections, and capital projects for growth, replacement, efficiency, and level of service compliance.

Salem's wastewater system consists of:

- 2 wastewater treatment facilities with a combined treatment capacity of about 200 million gallons per day
- 30 wastewater pump stations
- 2 river outfalls
- 23 miles of wastewater interceptor mains
- 61 miles of wastewater trunk mains
- 800 miles of collector mains
- 62,000 connections
- 15,000 manholes
- 2,000 miscellaneous structures and siphons.

The wastewater system has an estimated replacement value of approximately \$1,950,000,000.

Water

The City of Salem provides potable water services within an area that comprises more than 55 square miles, including the City of Salem and the City of Turner. The combined peak day demand is about 45 million gallons per day. The services include potable water operation and maintenance of the water supplies, intakes, treatment, storage, and distribution system. This also includes monitoring, public education and involvement, municipal regulations, potable water quality compliance, facility inspections, and capital projects for growth, replacement, efficiency, and level of service compliance. Salem's potable water system consists of:

- a surface water intake and treatment facility with a safe yield treatment capacity of about 75 million gallons per day
- 22 water storage reservoirs
- 18 water pump stations
- 54 miles of transmission mains greater than 30" in diameter
- 45 miles of trunk water main between 18" and 30" in diameter
- 660 miles of distribution mains less than 18" in diameter
- more than 5,000 fire hydrants
- more than 19,000 line valves
- more than 51,000 service connections.

The potable water system has an estimated replacement value of approximately \$960,000,000.

Total Estimated Project Cost:					\$	5,656,680

The existing 36-inch and 54-inch water transmission lines lack ways in which to isolate sections or divert / split flows between the two parallel lines. This project will install 36-inch intertie pipelines to connect the existing 36-inch water transmission line and 54-inch water transmission line west of Stayton in order to provide for additional capacity, interoperability, and safety. This project is the third of four improvement projects recommended as part of the 2016 36-Inch Water Transmission Line Alternatives Analysis.

Title: Miscellaneous Water System Operations Projects

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
Utility Rates	150,000	150,000	150,000	150,000	150,000	750,000
Current CIP Total:	\$ 150,000	\$ 150,000	\$ 150,000	\$ 150,000	\$ 150,000	\$ 750,000

Amount Funded in Prior Years: 150,000

Total Estimated Project Cost: \$ 900,000

Design and construction for replacement of deteriorated and / or undersized water mains identified during the fiscal year.

Project Number: 0001054
 Category: Water Ward: All
 Neighborhood: Citywide

Title: Miscellaneous Water System Rehabilitation and Replacement Projects

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
Utility Rates	300,000	500,000	500,000	700,000	1,000,000	3,000,000
Current CIP Total:	\$ 300,000	\$ 500,000	\$ 500,000	\$ 700,000	\$ 1,000,000	\$ 3,000,000

Amount Funded in Prior Years: 300,000

Total Estimated Project Cost: \$ 3,300,000

Rehabilitation and replacement of deteriorated and leaking water mains.

City of Salem
Capital Improvement Plan - Fiscal Years 2022 through 2026

Project Number: 0001056
Category: Water Ward: 6
Neighborhood: East Lancaster Neighborhood Association (ELNA)

Title: Cordon Road NE and Auburn Road NE Water Main System Improvements - Developer Reimbursement

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
SDC-Water	960,000	-	-	-	-	960,000

Current CIP Total: \$ 960,000 \$ - \$ - \$ - \$ - \$ 960,000

Amount Funded in Prior Years: 1,040,000

Total Estimated Project Cost: \$ 2,000,000

Anticipated reimbursement (pass-through credits) to the developer for design and construction of a 24-inch water main in Cordon Rd NE from the existing main near Gaffin Rd SE to Auburn Rd NE and a 12-inch water main in Auburn Rd NE from Cordon Rd NE to Greencrest St NE and in Greencrest St NE to the south line of Phase 1.

Project Number: 0001080
Category: Water Ward: All
Neighborhood: Citywide

Title: Groundwater Wells at Geren Island

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
Revenue Bonds	6,923,500	-	-	-	-	6,923,500

Current CIP Total: \$ 6,923,500 \$ - \$ - \$ - \$ - \$ 6,923,500

Amount Funded in Prior Years: 7,171,000

Total Estimated Project Cost: \$ 14,094,500

Design and construction to expand the existing groundwater resources at Geren Island with additional shallow wells that tap into the saturated river bed. The additional groundwater well will allow for operational flexibility when the surface water intake is impacted by high turbidity caused by flooding and excessive algae growth in the warm summer months. By mixing in cleaner groundwater during challenging surface water events, the filters can operate efficiently thereby reducing maintenance costs.

Project Number: 0001081
Category: Water Ward: All
Neighborhood: Citywide

Title: ASR Improvements at Woodmansee Park

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
Revenue Bonds	2,396,000	-	-	-	-	2,396,000

Current CIP Total: \$ 2,396,000 \$ - \$ - \$ - \$ - \$ 2,396,000

Amount Funded in Prior Years: 10,329,000

Total Estimated Project Cost: \$ 12,725,000

Design and construction for improvements to the Woodmansee Park Aquifer Storage and Recovery (ASR) Well to remove residual chlorine before injection into the aquifer to eliminate the risk of creating disinfection by-products. Work also includes re-chlorinating and adjusting the pH of water pumped from the aquifer before mixing with water in the system and piping improvements to optimize hydraulics.

City of Salem**Capital Improvement Plan - Fiscal Years 2022 through 2026**

Project Number: 0001112 Score: 60.75
Category: Water Ward: 6
Neighborhood: East Lancaster Neighborhood Association (ELNA)

Title: Sleepy Hollow Waterline

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
Utility Rates	1,100,000	-	-	-	-	1,100,000
Current CIP Total:	\$ 1,100,000	\$ -	\$ -	\$ -	\$ -	\$ 1,100,000

Amount Funded in Prior Years: -

Total Estimated Project Cost: \$ 1,100,000

Construction of approximately 2,000 LF of 8-inch waterline, 650 feet of 4-inch waterline, new fire hydrants, and service connections to 41 houses to disconnect the residents from the private well system.

Project Number: 0001137
Category: Water Ward: All
Neighborhood: Citywide

Title: Turner Water Pump Station

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
Utility Rates	1,000,000	-	-	-	-	1,000,000
Current CIP Total:	\$ 1,000,000	\$ -	\$ -	\$ -	\$ -	\$ 1,000,000

Amount Funded in Prior Years: -

Total Estimated Project Cost: \$ 1,000,000

Design and construction of a new water pump station to supply water to the City of Turner from Franzen Reservoir. This will allow Salem more flexibility with operating the water transmission mains between the Geren Island Water Treatment Facility and the City of Salem.

Project Number: 0001138
Category: Water Ward: 3, 4, 7
Neighborhood: Morningside Neighborhood Association, Southeast Mill Creek Association (SEMCA), Sunnyslope Neighborhood Association

Title: Reservoir Safety Improvements at College, Kurth, Mader, & Seeger Reservoirs

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
Utility Rates	700,000	-	-	-	-	700,000
Current CIP Total:	\$ 700,000	\$ -	\$ -	\$ -	\$ -	\$ 700,000

Amount Funded in Prior Years: -

Total Estimated Project Cost: \$ 700,000

Design and construction of safety upgrades, including OSHA compliant ladder, railings, and tie-offs.

Project Number: 0001139
 Category: Water Ward: 3
 Neighborhood: Morningside Neighborhood Association

Title: Reed Rd SE Water Main - Strong Rd to Coburn Grand View Subdivision - Dev Reimb

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
SDC-Water	500,000	-	-	-	-	500,000
Current CIP Total:	\$ 500,000	\$ -	\$ -	\$ -	\$ -	\$ 500,000

Amount Funded in Prior Years: -

Total Estimated Project Cost: \$ 500,000

Anticipated reimbursements to the Grove Apartments Phase 2 developer for design and construction of 2,300 LF of 18-inch water main in Reed Road SE associated with Reed Road SE street improvements from Strong Road SE to Coburn Grand View subdivision

Project Number: 0001140
 Category: Water Ward: All
 Neighborhood: Citywide

Title: Groundwater Wells at Geren Island (Companion Funding)

Funding Source	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Total
SDC-Water	192,500	-	-	-	-	192,500
Current CIP Total:	\$ 192,500	\$ -	\$ -	\$ -	\$ -	\$ 192,500

Amount Funded in Prior Years: -

Total Estimated Project Cost: \$ 192,500

Design and construction to expand the existing groundwater resources at Geren Island with additional shallow wells that tap into the saturated river bed. The additional groundwater well will allow for operational flexibility when the surface water intake is impacted by high turbidity caused by flooding and excessive algae growth in the warm summer months. By mixing in cleaner groundwater during challenging surface water events, the filters can operate efficiently thereby reducing maintenance costs.
