

## Staff Report

---

**File #:** 17-454**Version:** 1**Date:** 9/25/2017**Item #:****TO:** Mayor and City Council**THROUGH:** Steve Powers, City Manager**FROM:** Lisa Anderson-Ogilvie, AICP, Interim Community Development Director**SUBJECT:**

Initiate a Comprehensive Plan amendment to adopt the new NESCA-Lansing Neighborhood Plan.

Ward(s): Ward 1, 2, 5, and 6

Councilor(s): Councilors - Kaser, Andersen, Ausec, and Hoy

Neighborhood(s): NESCA and Lansing

**ISSUE:**

Shall City Council initiate a Comprehensive Plan amendment to adopt the new NESCA-Lansing Neighborhood Plan?

**RECOMMENDATION:**

Adopt Resolution No. 2017-23 to:

- 1) Initiate a Comprehensive Plan amendment to adopt the new NESCA-Lansing Neighborhood Plan; and
- 2) Refer the matter to the Planning Commission for public hearing and recommendation.

**SUMMARY AND BACKGROUND:**

The Northeast Salem Community Association (NESCA) and Lansing Neighborhood Association have partnered with the City of Salem to prepare a new joint NESCA-Lansing Neighborhood Plan (Neighborhood Plan). The draft Neighborhood Plan is available for review online:

[www.cityofsalem.net/Pages/NESCA-Lansing-Neighborhood-Plan.aspx](http://www.cityofsalem.net/Pages/NESCA-Lansing-Neighborhood-Plan.aspx)

<http://www.cityofsalem.net/Pages/NESCA-Lansing-Neighborhood-Plan.aspx>. A neighborhood plan documents citizen desires on a broad range of concerns in a designated neighborhood, or in this case, two neighborhoods. The purpose of a neighborhood plan is to provide detailed goals and policies for the designated neighborhood in a manner consistent with the Salem Area Comprehensive Plan.

The Neighborhood Plan is the second to be prepared by two abutting neighborhood associations (Attachment B). It is the result of a collaborative process called "Envision" that began in early 2016.

The planning process included extensive public outreach, including 12 facilitated community meetings, 20 public outreach events in the two neighborhoods, and 35 in-depth stakeholder interviews with key community leaders.

## **FACTS AND FINDINGS:**

1. The City, NESCA, and Lansing undertook a collaborative effort to prepare the new joint Neighborhood Plan. The collaborative effort, "Envision," was initiated in early 2016. Affected property owners, residents, businesses, and other community stakeholders were afforded maximum opportunity for involvement through a variety of means in all phases of the preparation of the Neighborhood Plan under SRC 64.325(a) and (b).
2. Adoption of the Neighborhood Plan is a "Major Comprehensive Plan Amendment" under SRC 64.020(b) and will be considered under the provisions of SRC 64.320-335 and SRC 300.1110. Adoption of the Neighborhood Plan also involves amendments to the text of SRC Chapter 64 to add the new plan to the list of City Council-adopted neighborhood plans.

City Council has standing to initiate major amendments to the Comprehensive Plan and the related amendments to the text of the SRC as provided in SRC 64.020(e)(1) and SRC 300.1110(a), and Council may refer the matter to the Planning Commission for public hearing and recommendation pursuant to SRC 300.1110(a)(1).

In accordance with SRC 64.330(c), the Planning Commission shall hold a public hearing and make recommendations to Council on what action to take regarding the amendment. The Commission shall forward its recommendation to Council within thirty days of the conclusion of Commission deliberations.

3. In accordance with SRC 64.335, Council shall hold a public hearing on the final draft Neighborhood Plan within 120 days following receipt of the Planning Commission's recommendation.

Following the City Council public hearing, Council may adopt the amendment to the Comprehensive Plan by ordinance, refer the proposal back to the Planning Commission, or dismiss the proceeding by resolution. Notice of the Council's decision shall be given in accordance with SRC 300.1110(j).

4. Adopting the Neighborhood Plan amends the Comprehensive Plan and requires notice to the Director of the Department of Land Conservation and Development no later than 35 days before the first public hearing pursuant to SRC 300.1110(d).

## **Neighborhood Plan Adoption Process**

5. To adopt the Neighborhood Plan, NESCA and Lansing's governing boards must adopt the draft

Neighborhood Plan by resolution. The resolutions, along with a copy of the draft Neighborhood Plan, must be submitted to the Planning Administrator. This submission initiates the process for adopting a neighborhood plan by the City. Formal adoption of a neighborhood plan as a component of the Comprehensive Plan is classified as a Major Comprehensive Plan Amendment per SRC 64.020(b) and must be initiated by the City Council. Related amendments to the text of the SRC may also be initiated by the City Council.

Only the Neighborhood Plan's Goals, Policies, and Generalized Land Use Map may be adopted as a component of the Comprehensive Plan. The Goals, Policies, and Generalized Land Use Map must be consistent with the Comprehensive Plan and statewide planning goals. Other portions of a neighborhood plan, such as recommended actions, may also be adopted as support documents.

### **Planning Process**

6. To prepare the draft Neighborhood Plan, City staff conducted a wide variety of public engagement activities in NESCA and Lansing. Activities included monthly meetings, a survey, a project website, the use of social media, stakeholder interviews, flyers, and emails. The NESCA and Lansing boards also helped with outreach by announcing upcoming neighborhood plan meetings at their regular neighborhood association meetings and by posting meeting invites on social media.

In the summer of 2016, City staff began to augment its outreach efforts after discovering that monthly meetings were not an adequate way to reach a broad segment of NESCA and Lansing's population, which includes many Spanish-speaking families. City staff decided to go out to events and organizations in the two neighborhoods to get more input. This included attending events at the three schools in NESCA and Lansing, regularly visiting a local networking and parenting support group called La Casita (a.k.a. Little House) in Lansing, and hosting tables at neighborhood events. In total, City staff attended 20 events to talk to stakeholders about the Neighborhood Plan and get their input.

In addition, a steering committee of NESCA and Lansing neighborhood representatives guided the planning process, providing valuable feedback and input. Through the various public outreach activities, hundreds of neighborhood residents, property owners, business operators, and other stakeholders participated in the process and contributed ideas and comments about the future of their neighborhoods. All of this input was used to develop the goals, policies and recommended actions in this Plan.

### **Plan Highlights**

7. A neighborhood plan documents citizen desires on a broad range of concerns in a designated neighborhood, or in this case, two neighborhoods. The purpose of a neighborhood plan is to

provide detailed goals and policies for the designated neighborhood in a manner consistent with the Comprehensive Plan. Specifically, neighborhood associations and City agencies, boards, and commissions consider a neighborhood plan when making recommendations and decisions that would affect the designated neighborhood.

The Neighborhood Plan contains Goals, Policies, and Recommended Actions to guide and shape the futures of NESCA and Lansing. It includes the following components:

Chapter 1: Introduction

Chapter 2: Neighborhood Profiles

Chapter 3: Heritage and Identity

Chapter 4: Housing

Chapter 5: Commercial Development

Chapter 6: Transportation

Chapter 7: Parks and Open space

Chapter 8: Public Facilities and Services

Chapter 9: Oregon State Fairgrounds

Chapter 10: North Campus of the Oregon State Hospital

Generalized Land Use Map

Lansing Neighborhood Opportunities Map

NESCA Neighborhood Opportunities Map

Several highlights from the Neighborhood Plan include Goals, Policies, and Recommended Actions that aim to achieve the following:

- Improve pedestrian safety and connectivity: Chapters 5 (Commercial Development), 6 (Transportation), 7 (Parks and Open Space), 8 (Public Facilities), 9 (Oregon State Fairgrounds), and 10 (North Campus of the State Hospital) contain Goals, Policies, and Recommended Actions that promote pedestrian safety and connectivity. For example, the Neighborhood Plan recommends adding or repairing sidewalks and crosswalks throughout the neighborhoods, particularly along corridors like D Street NE and Sunnyview Road NE and on streets that lead to destinations like schools, parks, and commercial areas. There are also recommendations to create more trails in and around the neighborhoods, including along and

through the fairgrounds property, and to encourage commercial development to provide safe pedestrian access to businesses and through parking lots. These and other recommendations recognize that many residents walk in and around the neighborhoods, and improvements are needed to connect areas that have effectively been separated by major streets and highways that run through NESCA and Lansing.

- Celebrate neighborhood identity: Chapters 3 (Heritage and Identity), 6 (Transportation), 7 (Parks and Open Space), and 9 (Oregon State Fairgrounds) contain Goals, Policies, and Recommended Actions that aim to celebrate NESCA and Lansing's neighborhood heritage and identity. Specifically, the Neighborhood Plan describes their identity as neighborhoods that are family-oriented, culturally diverse, centrally-located, and welcoming to people of all incomes, ages, and backgrounds. Recommendations in the Neighborhood Plan then identify ways to promote and celebrate that identity such as organizing neighborhood festivals and installing murals or plazas in neighborhood parks. This focus on neighborhood identity is new to neighborhood plans in Salem.
- Encourage a broader mix of compatible uses: Chapters 4 (Housing), 5 (Commercial Development), 9 (Oregon State Fairgrounds), and 10 (North Campus of the State Hospital) contain Goals, Policies, and Recommended Actions that support and encourage a greater diversity of uses to serve the neighborhood and its residents. For example, the Housing chapter encourages mixed-use development in existing commercial areas and on major corridors, and it promotes a broad range of housing types to serve seniors. There are also recommendations in other chapters that encourage the development of small-scale, neighborhood-serving retail businesses and restaurants in residential neighborhoods, on the Fairgrounds property, and as part of the redevelopment of the North Campus. The Neighborhood Plan stresses that new uses and development should be compatible with the existing neighborhoods.
- Increase parks and park amenities: Chapters 7 (Parks and Open Space), 9 (Oregon State Fairgrounds), and 10 (North Campus of the State Hospital) contain Goals, Policies, and Recommended Actions that seek to increase the number of parks in and around NESCA and Lansing and improve existing neighborhood parks. The Neighborhood Plan, for example, recommends that new parks be developed on the Fairgrounds property, on the North Campus site, and in underserved residential areas such as along Sunnyview Road NE in Lansing. It also recommends enhancing existing parks with amenities like drinking fountains and sheltered

areas so that they better serve people of all ages and cultural backgrounds. These and other recommendations recognize that parks provide neighborhoods with essential public gathering spaces, and they are free and open to all residents, making them especially important for those without other recreational opportunities.
